**Effort: 20 mins**

# Objective

In this lab, you will learn:

0. Import the notebook in Watson Studio

# IBM Watson Setup

*If you have not created a Watson service before proceed with Step 1, otherwise go to Step 2:*

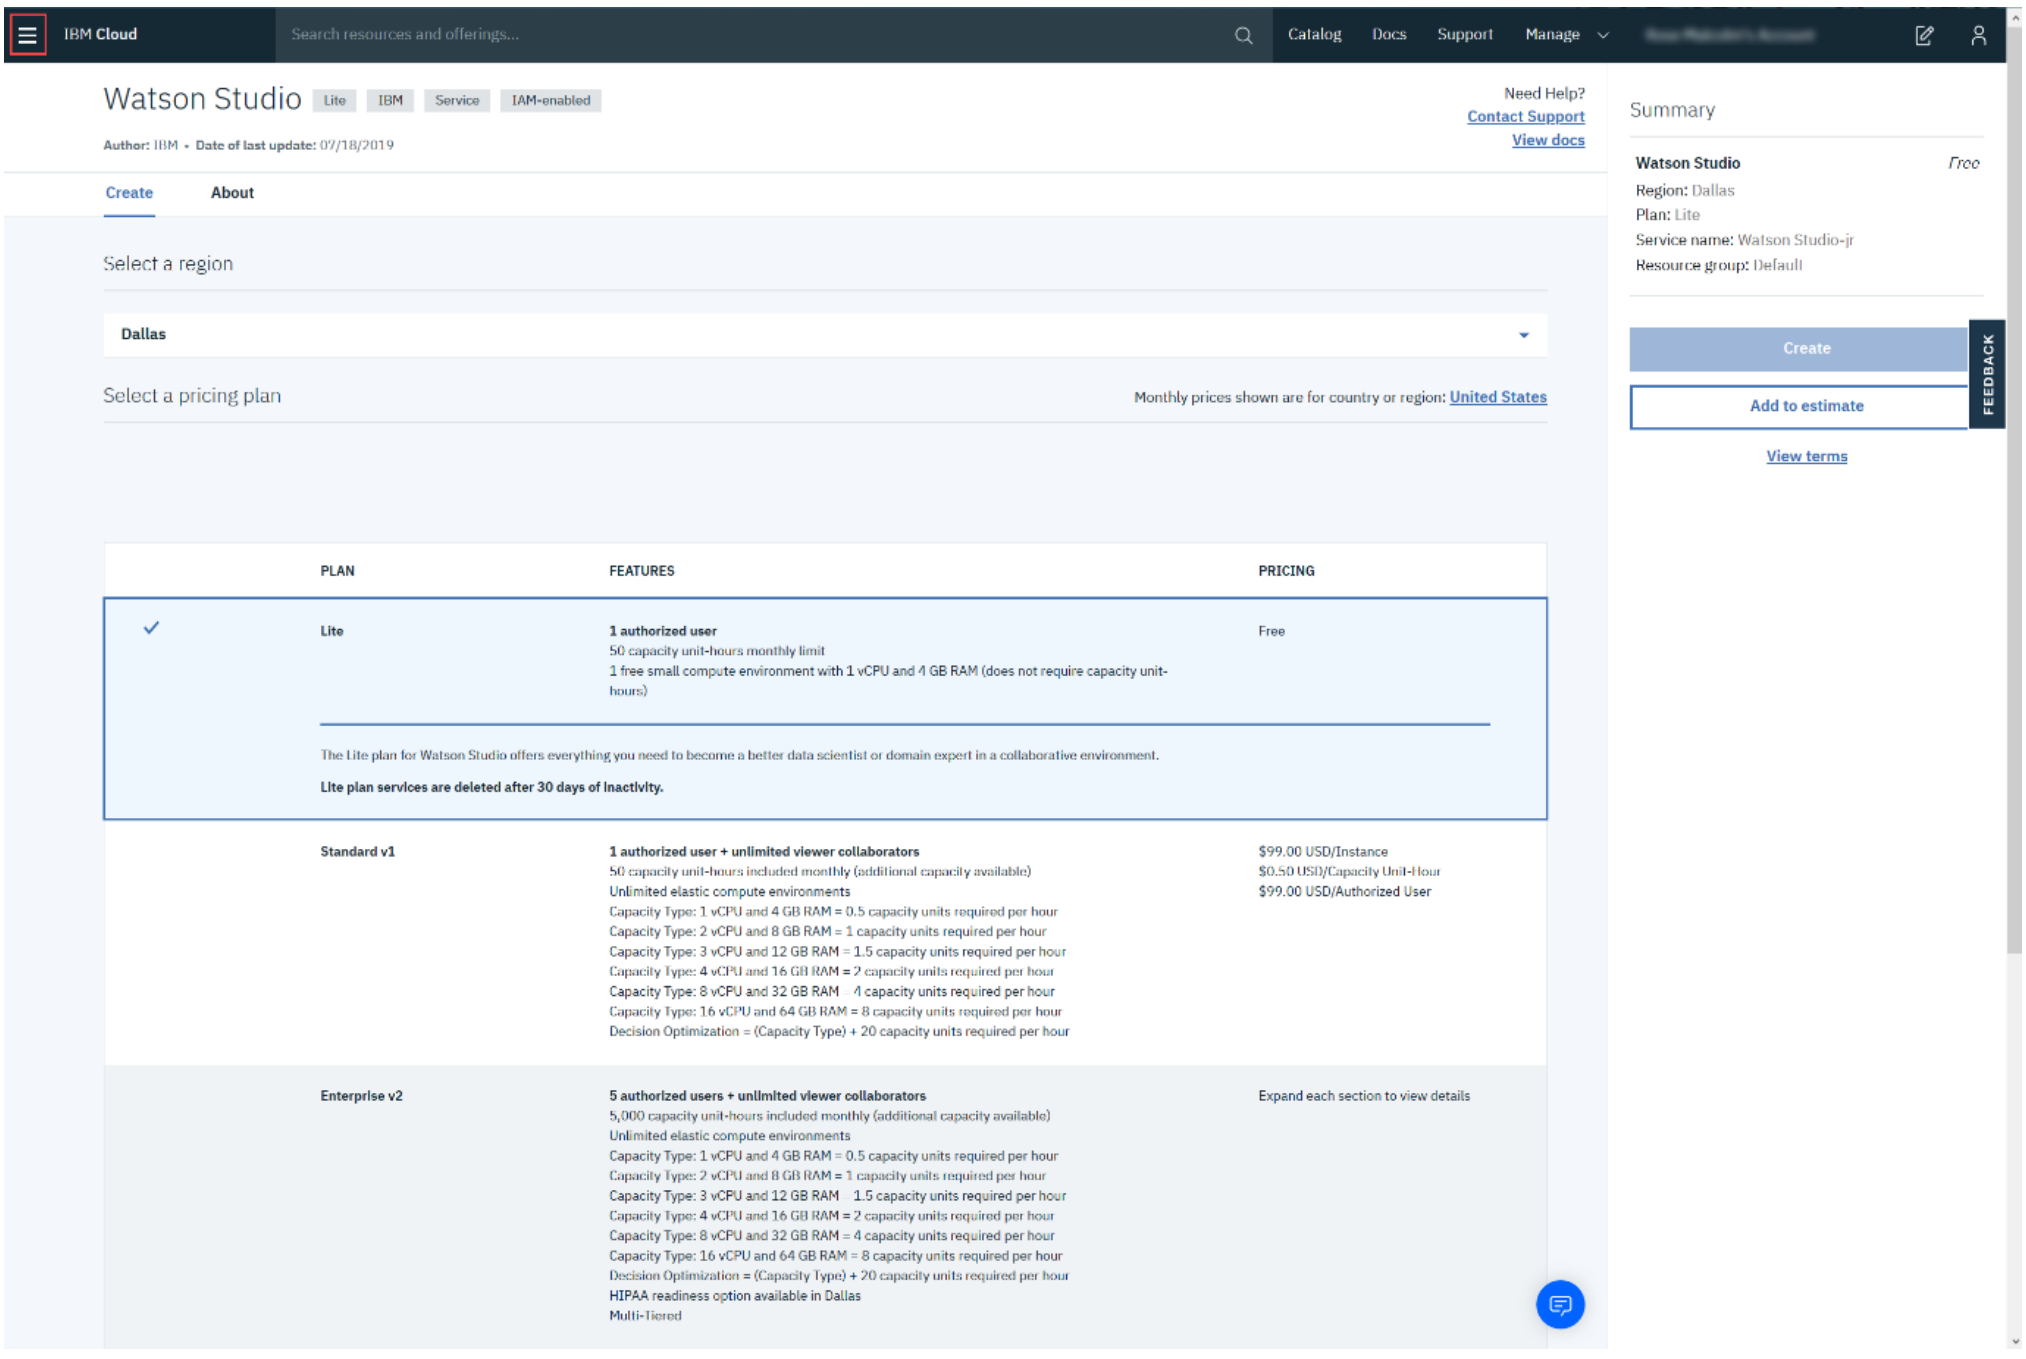
## Step 1: For New Users (with no Watson service):

For this project, you will use your IBM Watson Studio account from the previous chapter.

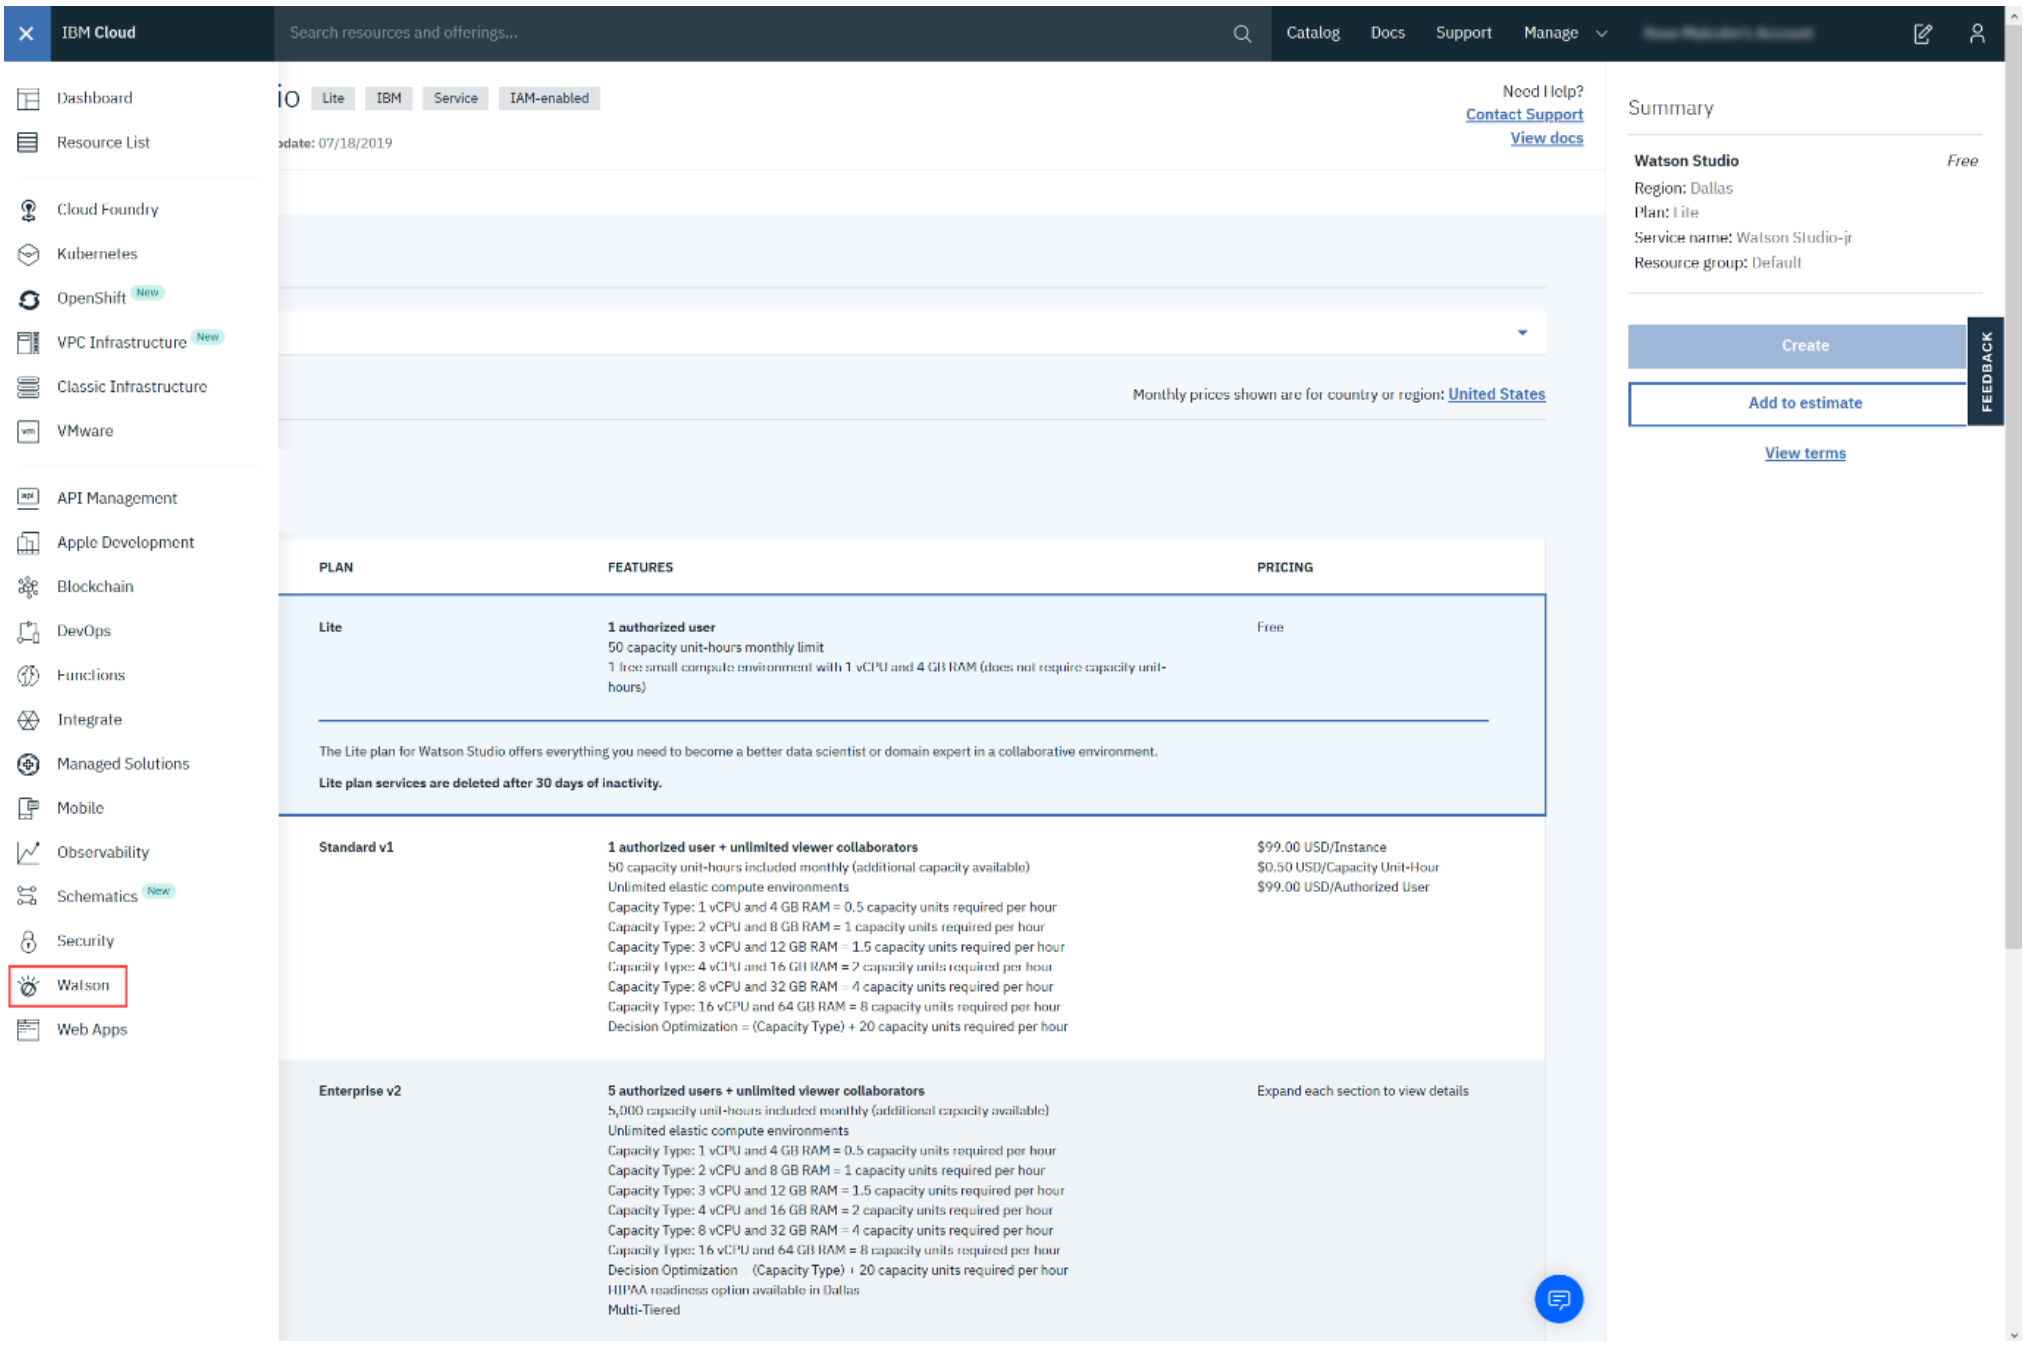
Go to the IBM Cloud Watson Studio page:

[Click here]

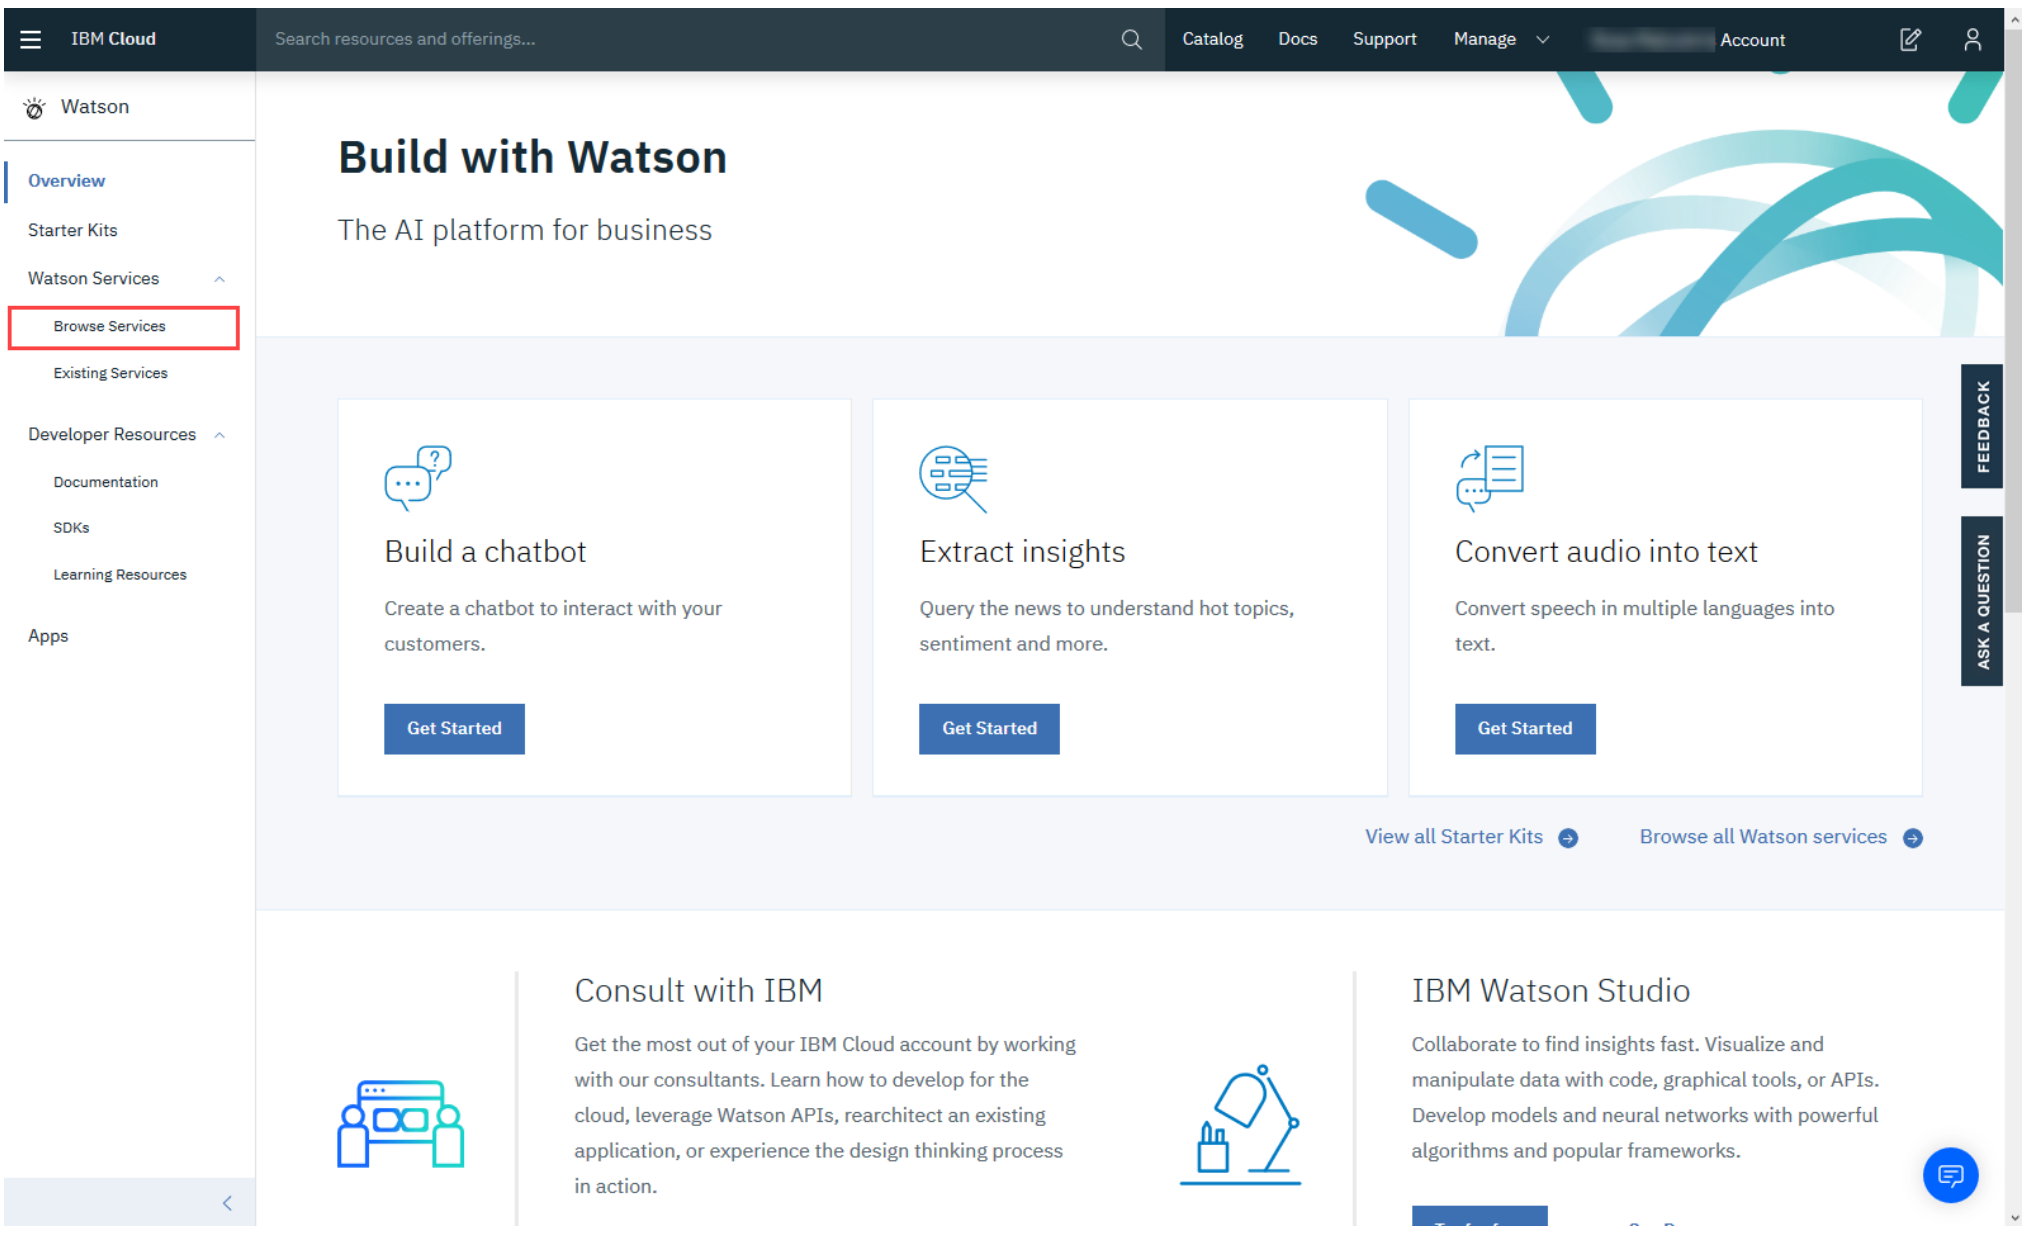
You will see the screen in the figure below. Click the icon in the red box:



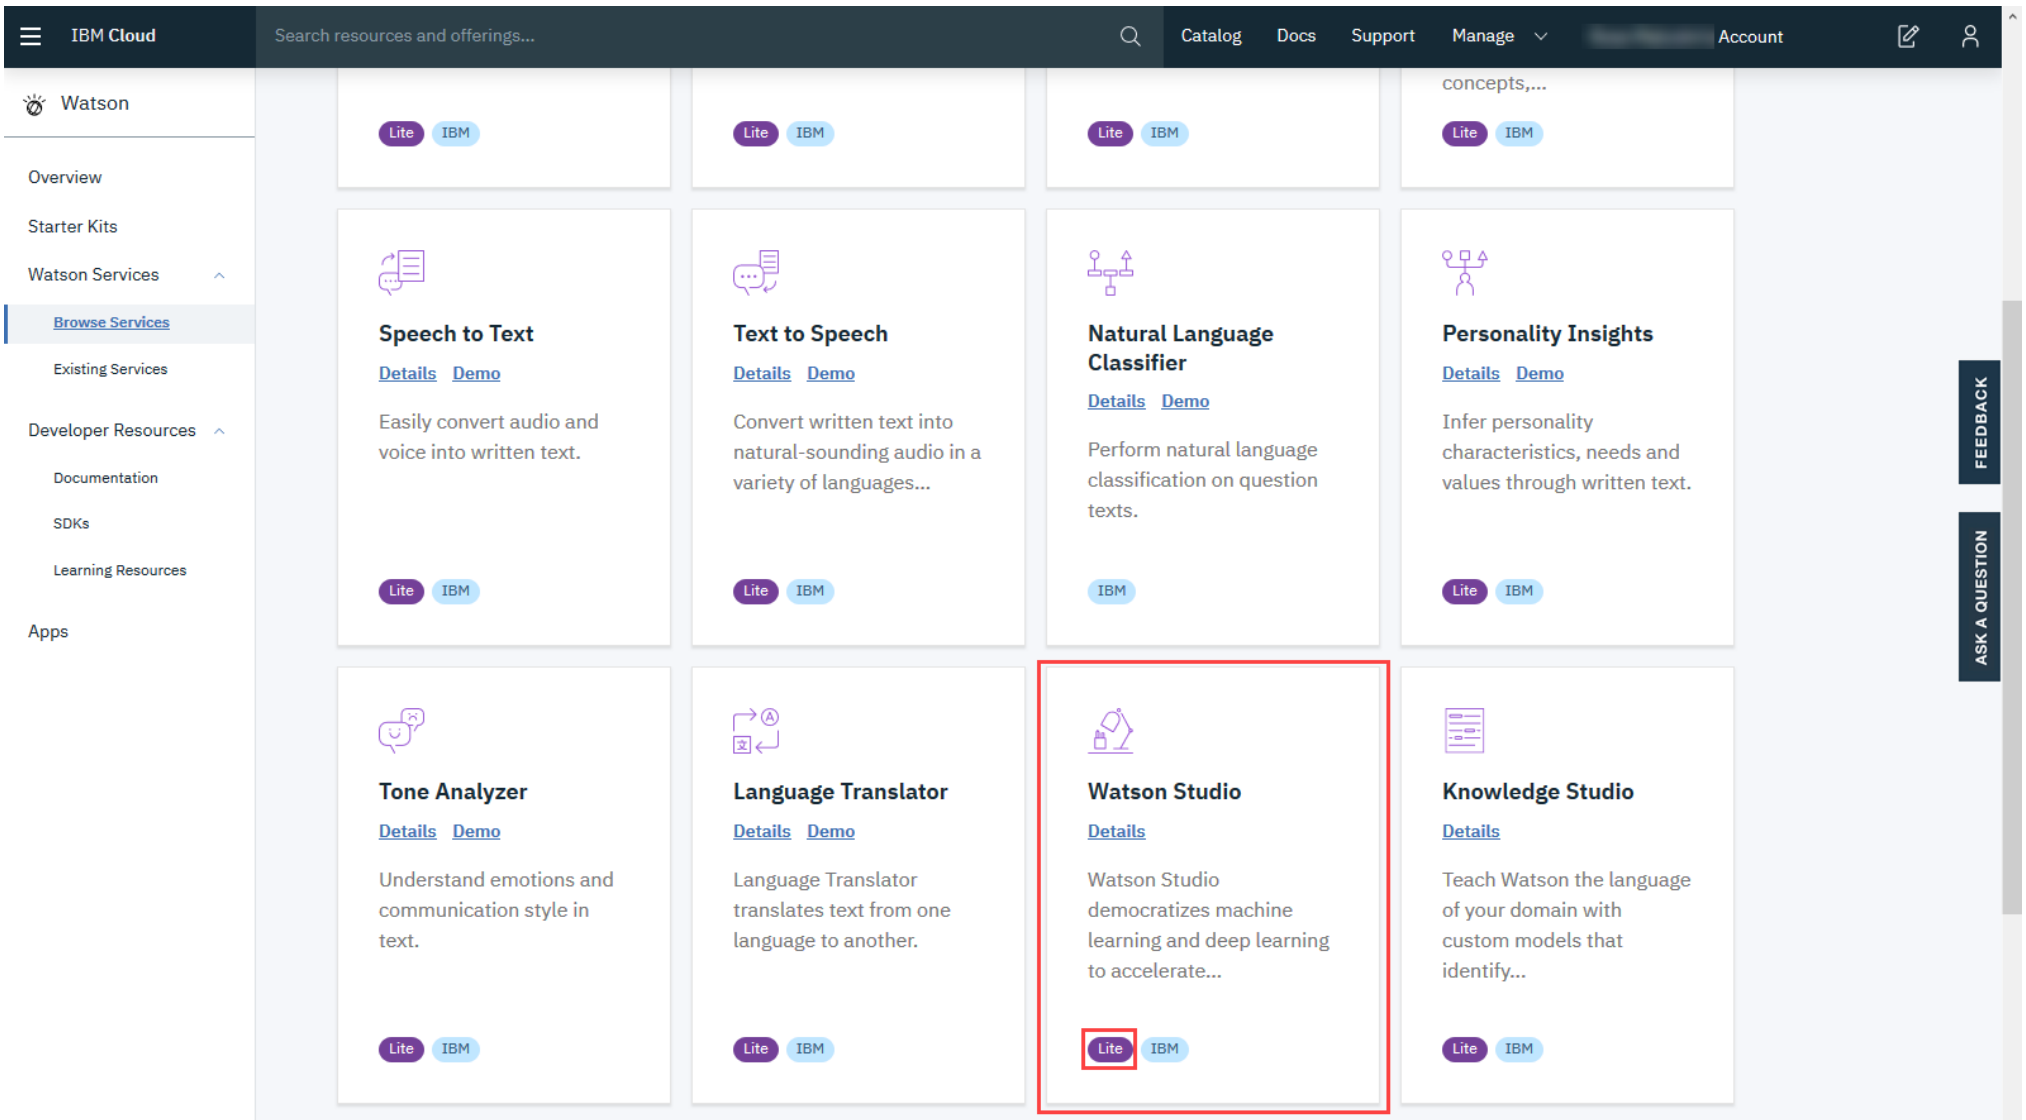
Then click **Watson**, as shown below:



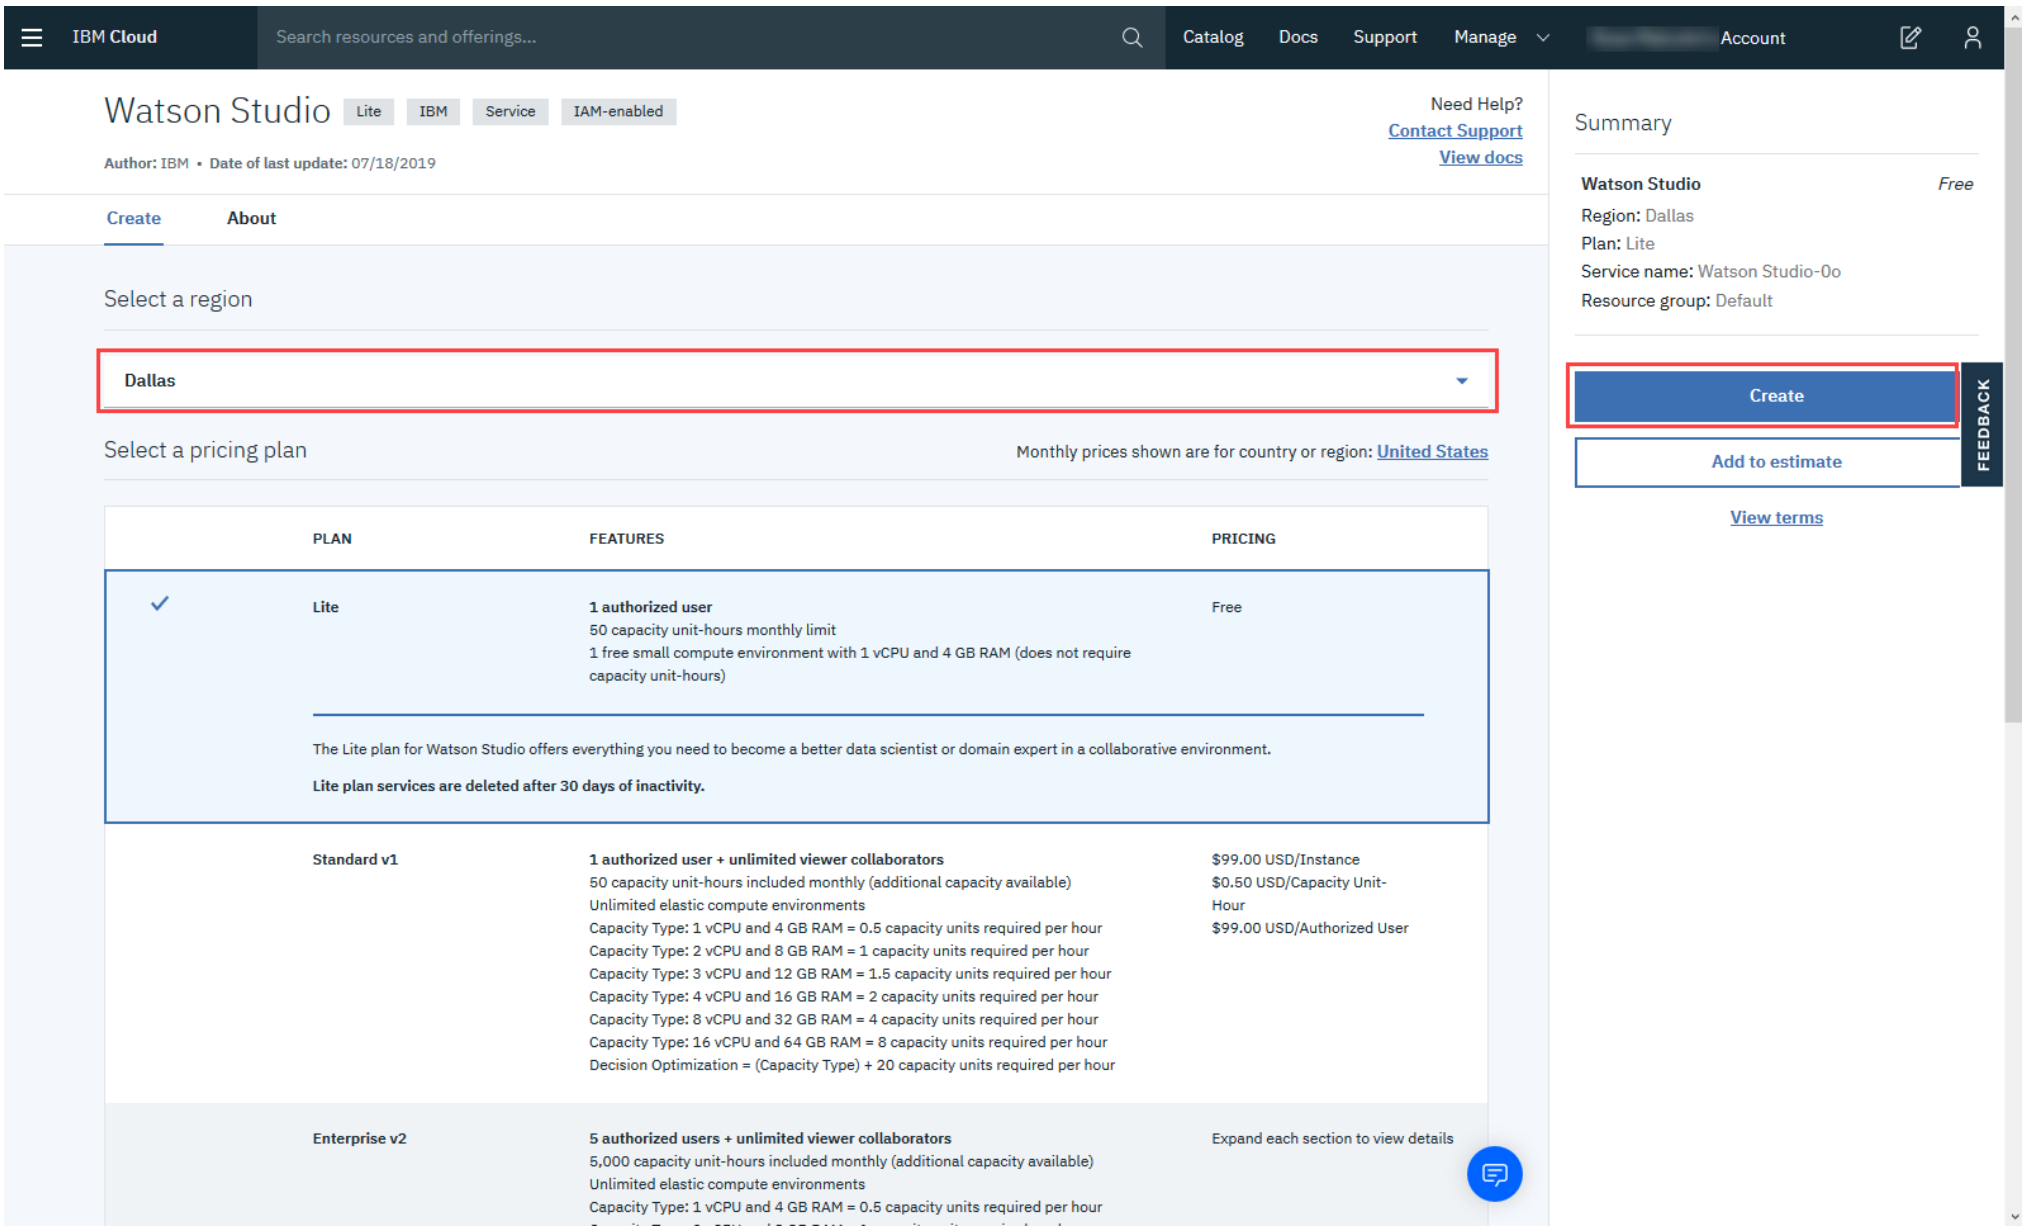
Then click **Browse Services.**



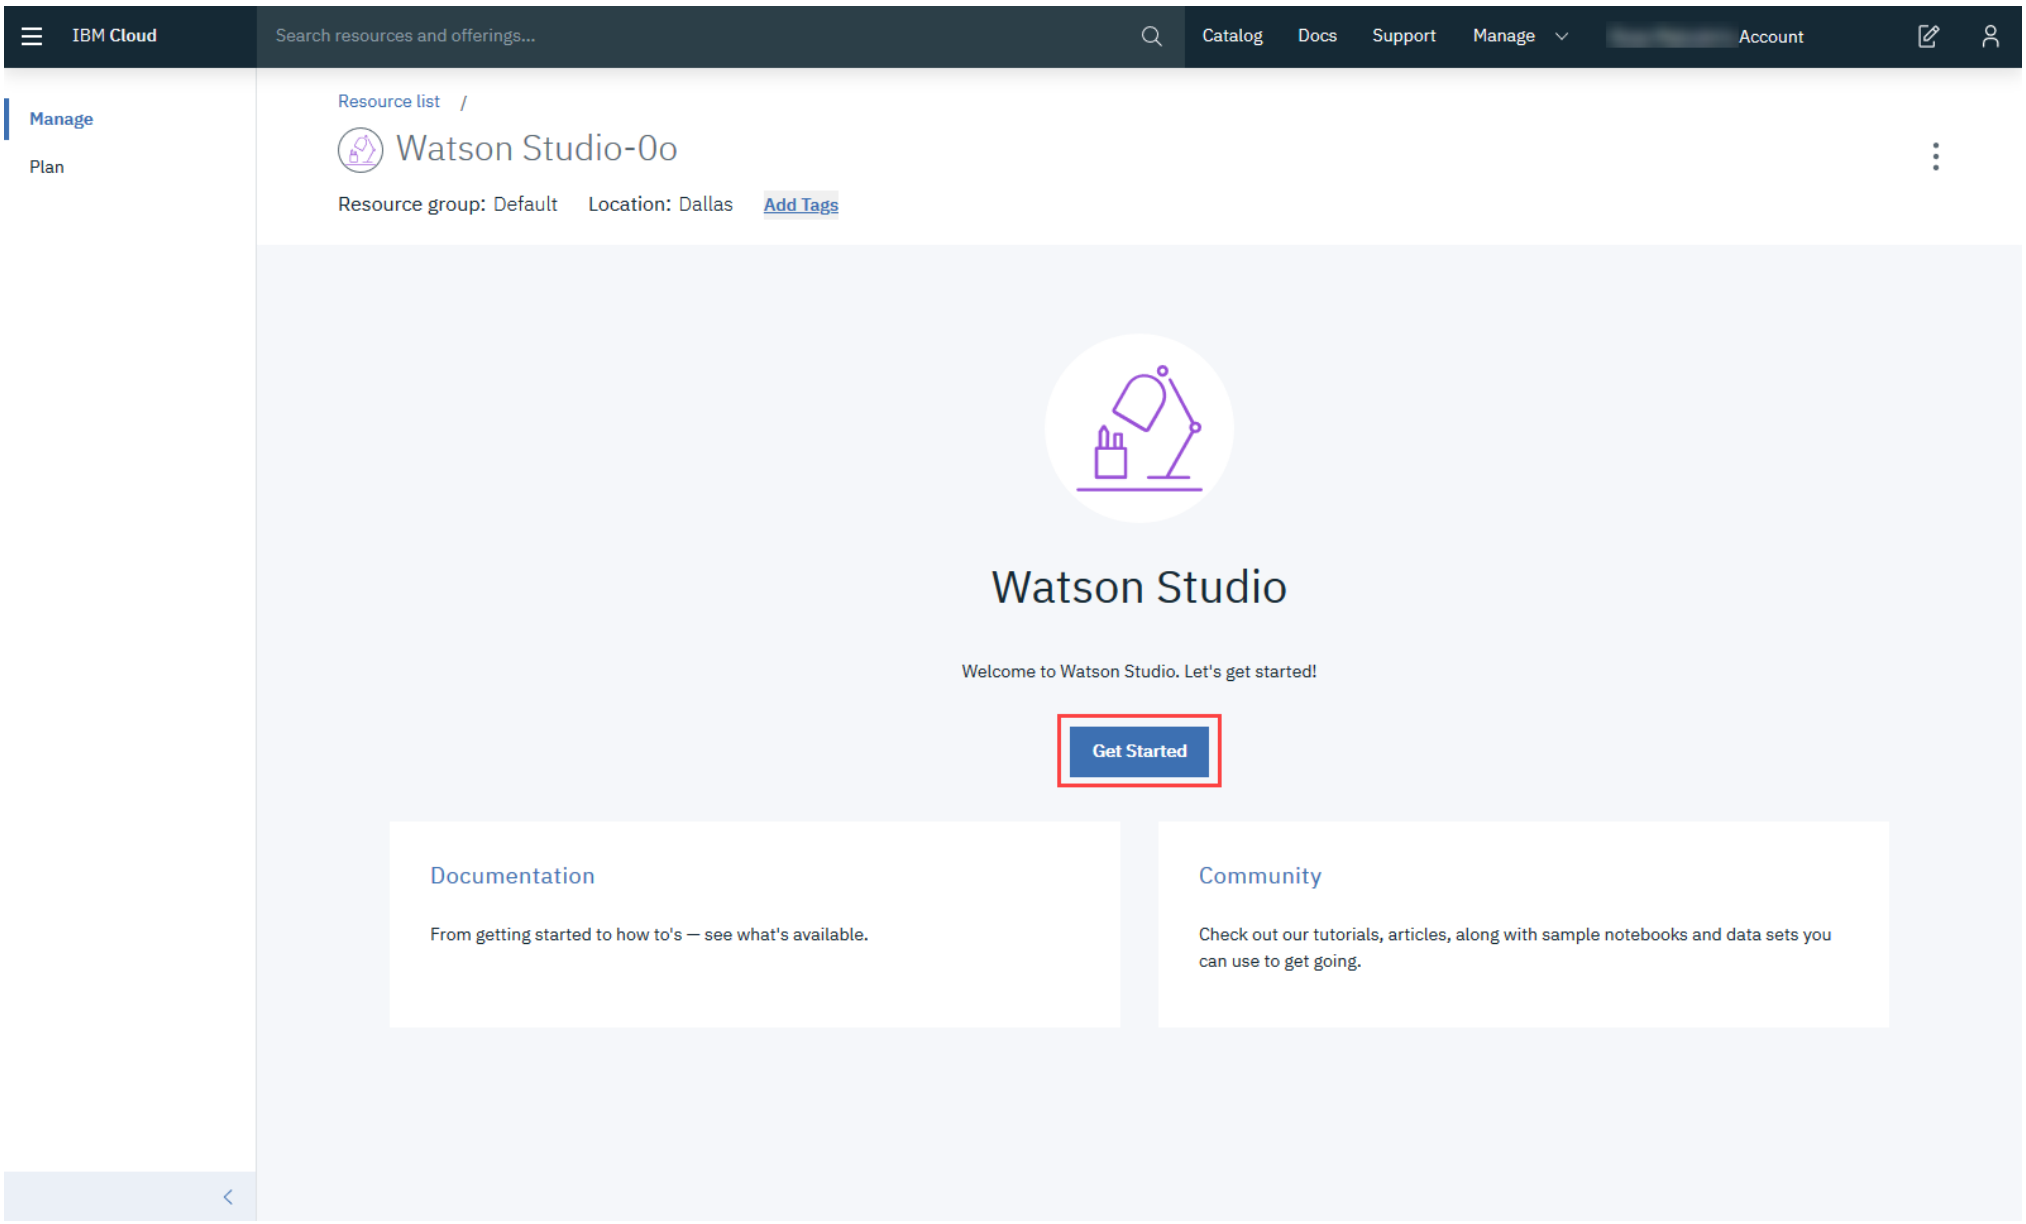
Scroll down and select **Watson Studio - Lite.**



To create a Watson service using the Lite plan, click **Create.**



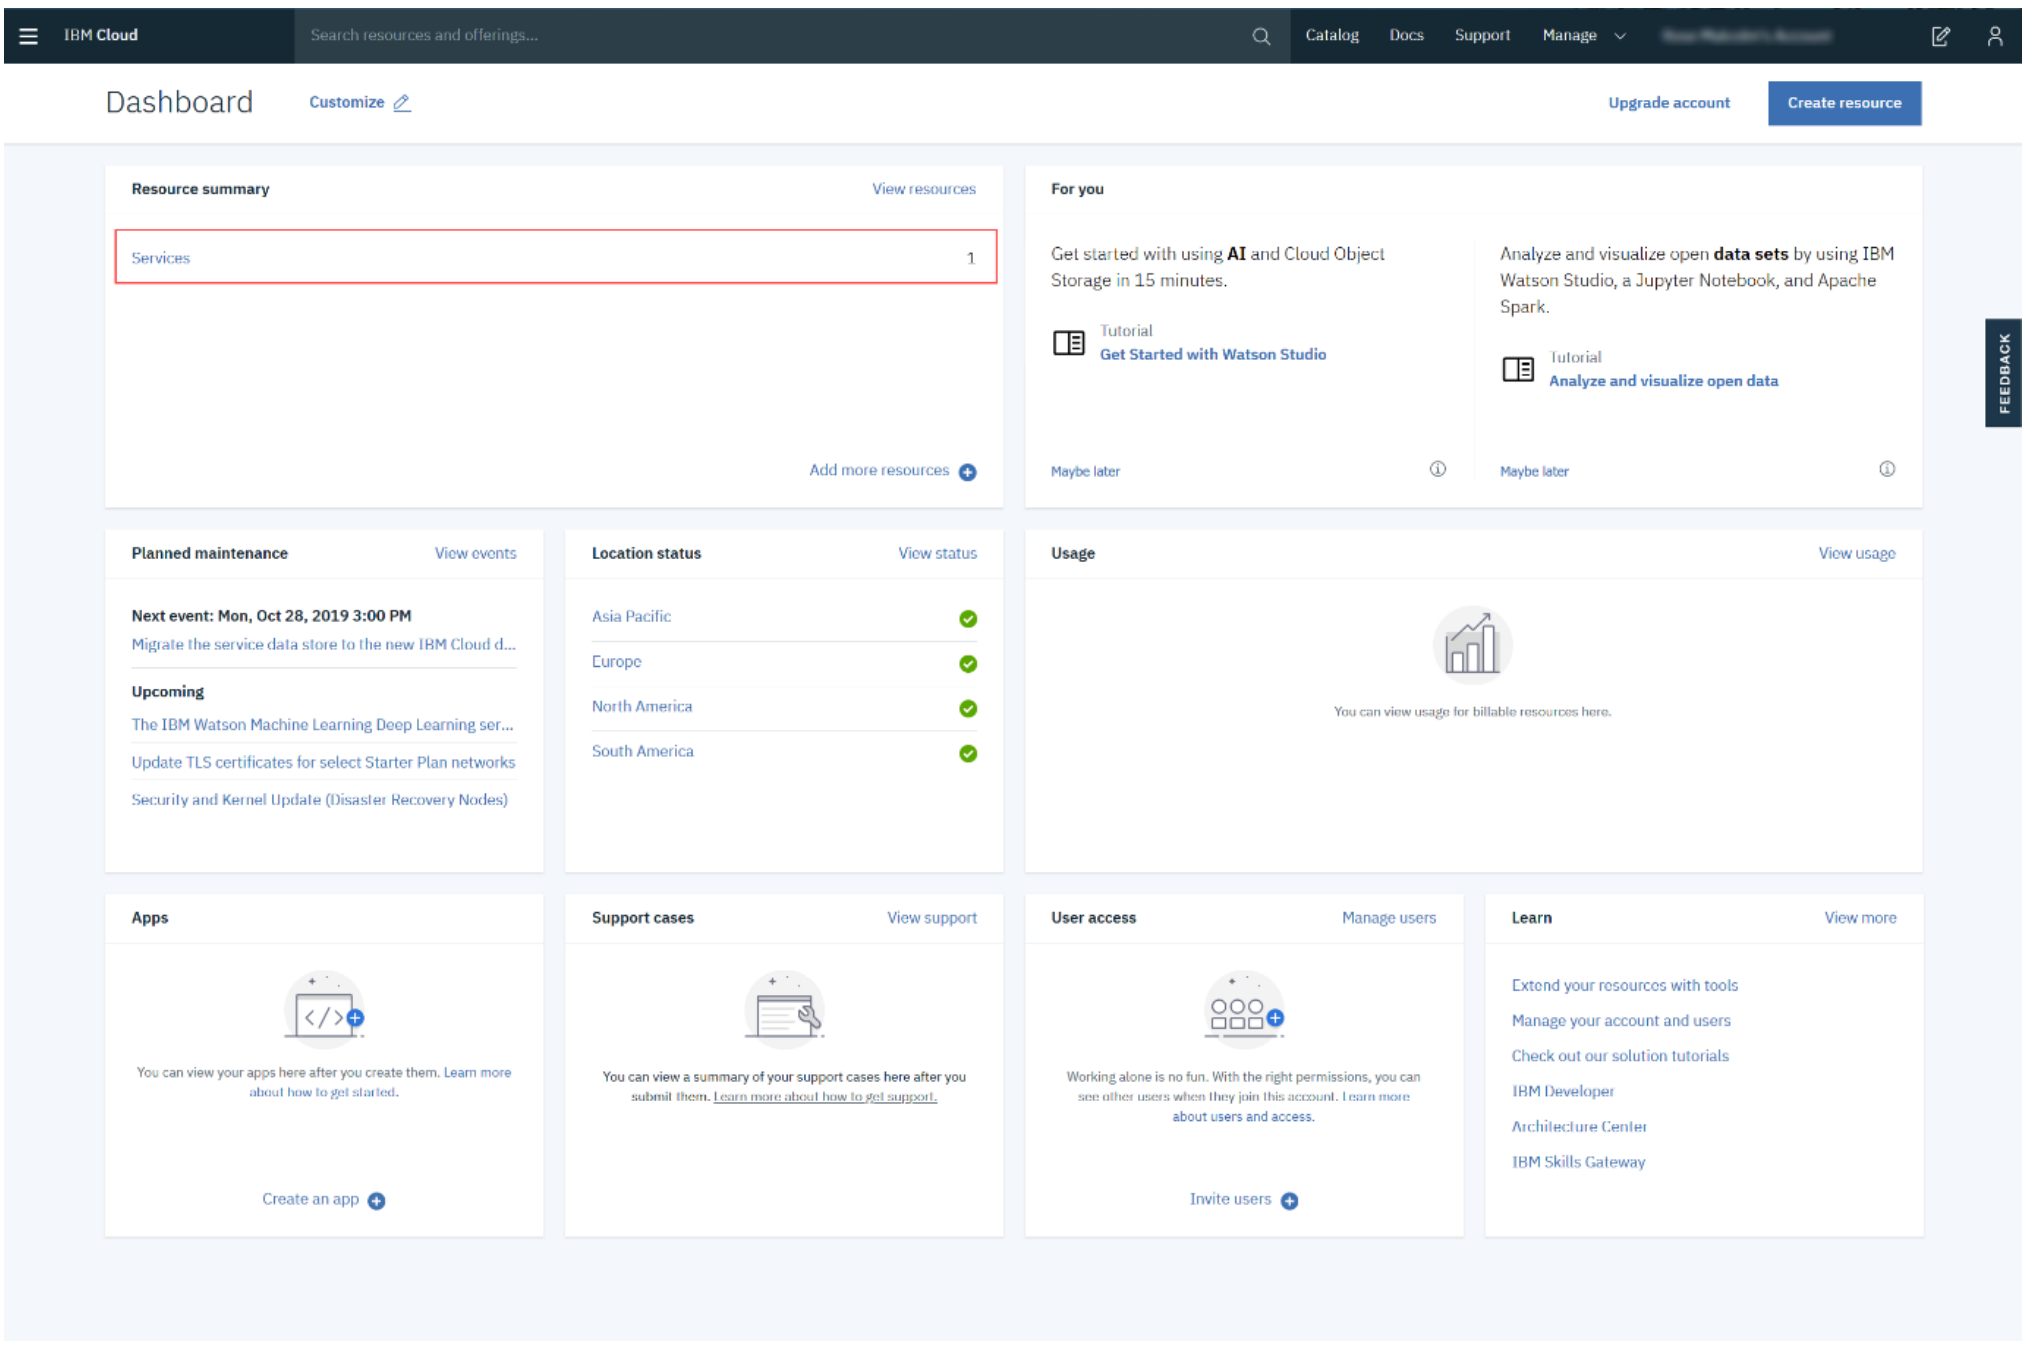
Now click **Get Started.**



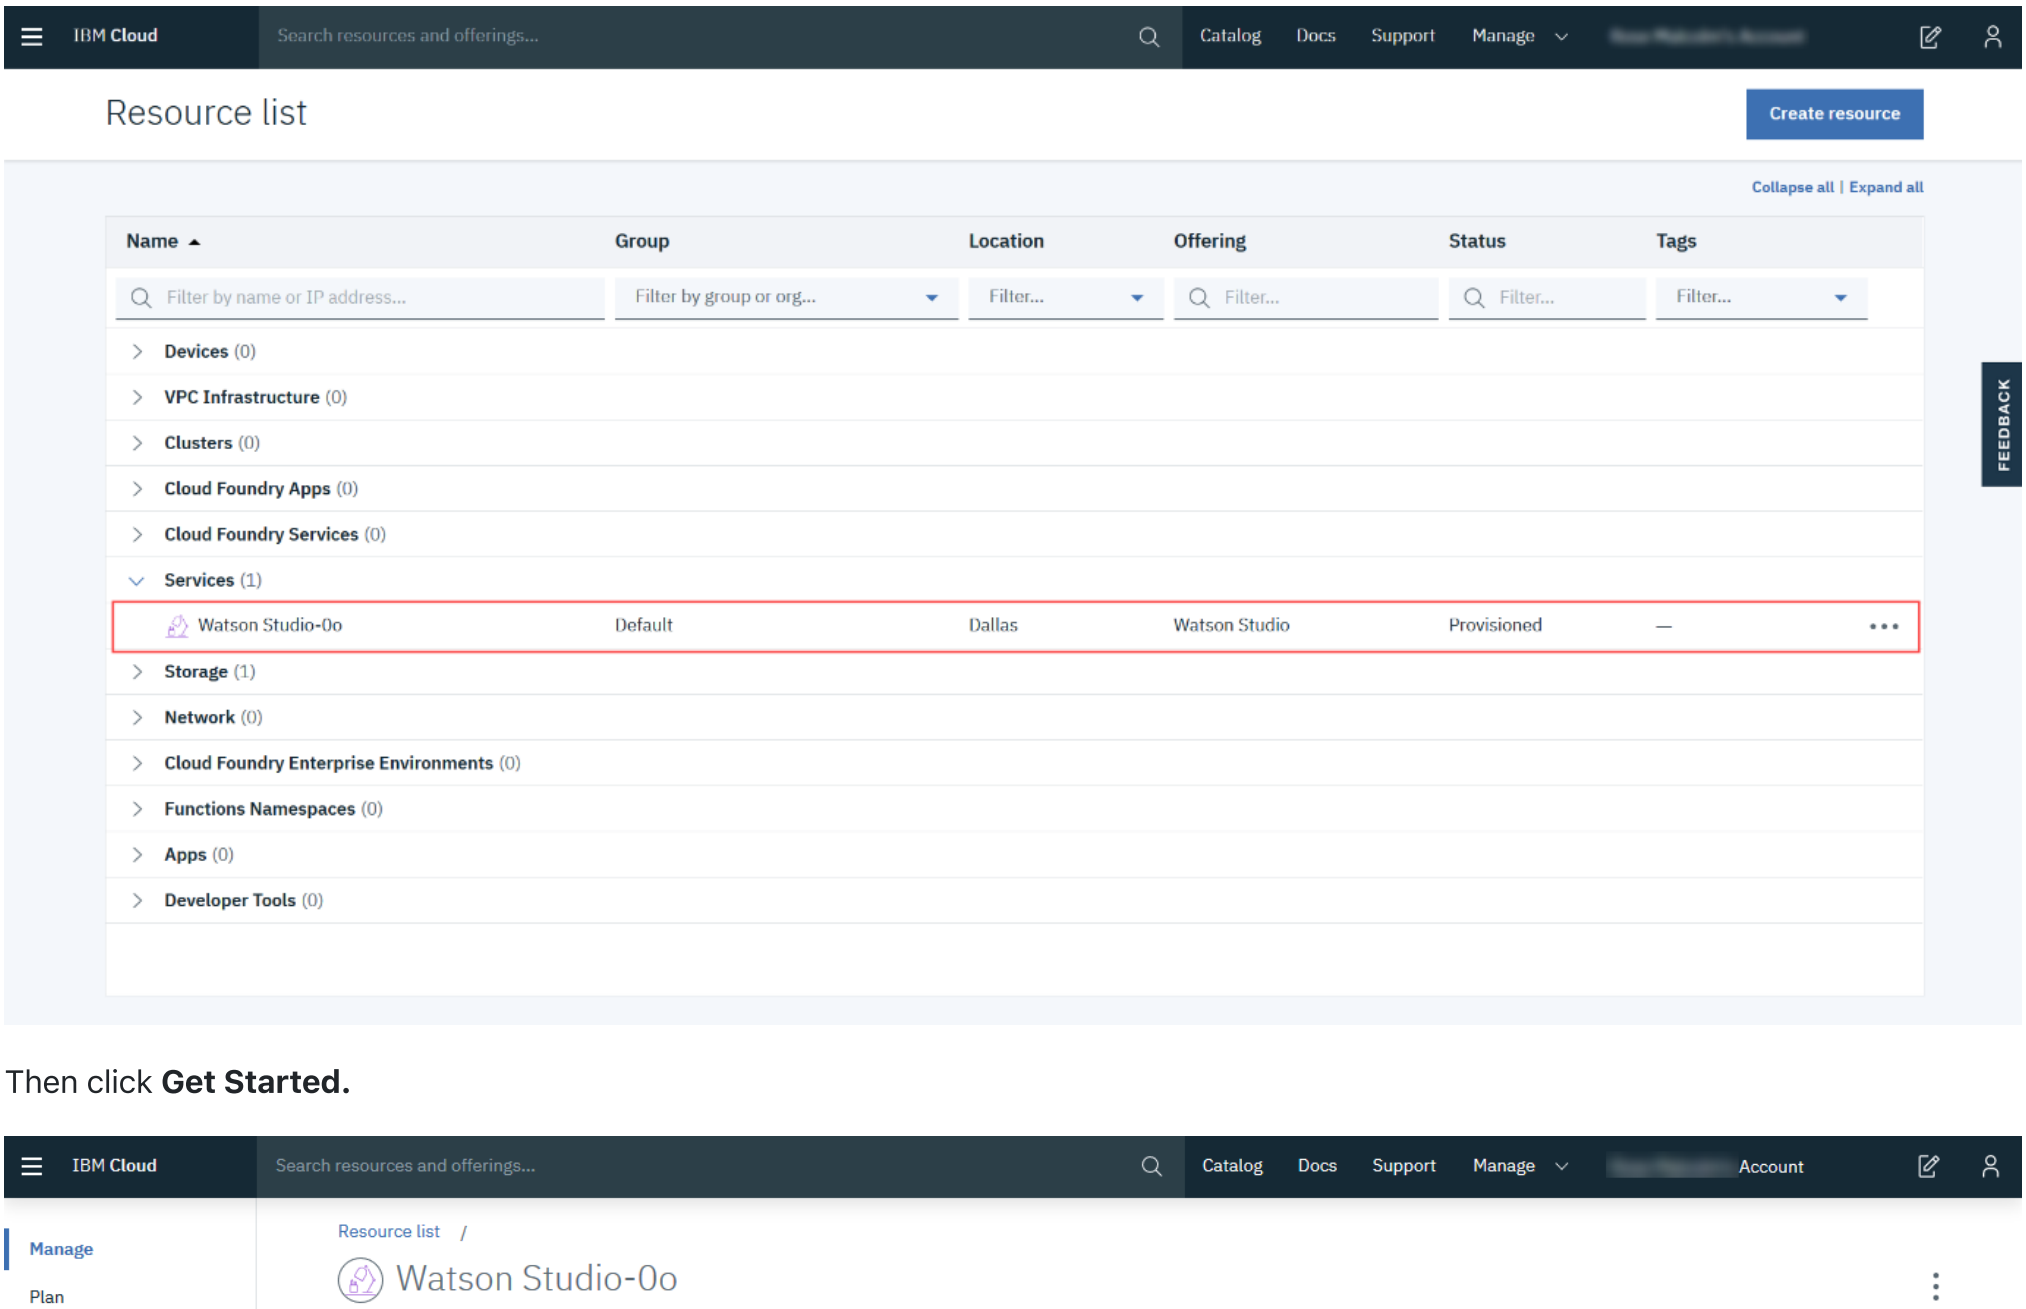
After creating the service continue with **Step 2.**

## Step 2: For Existing Users (who already have Watson Service):

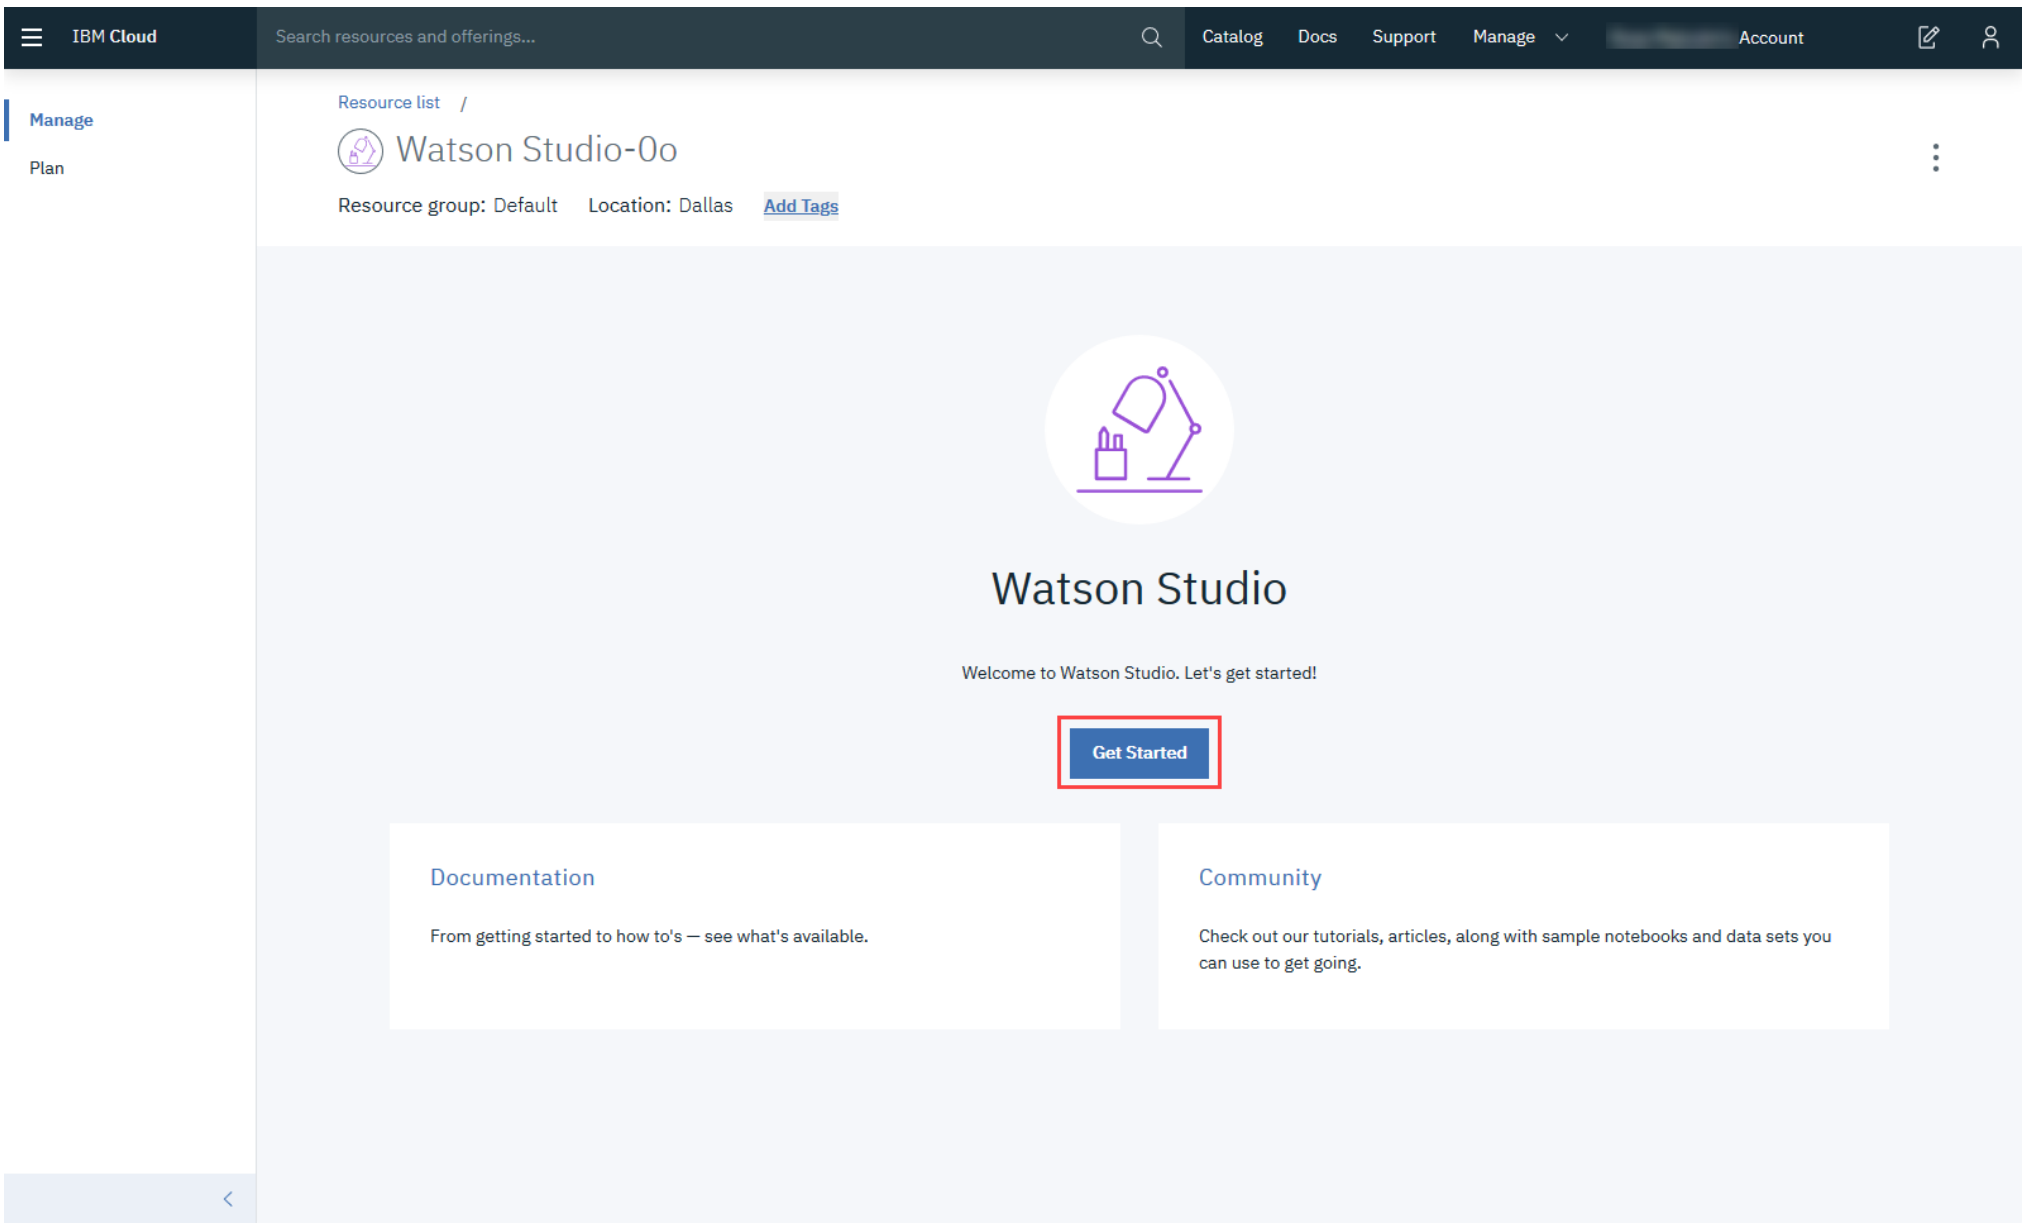
Go to the IBM Cloud Dashboard and click **Services.**



When you click on Services, all your existing services will be shown in the list. Click the **Watson Studio** service you created:



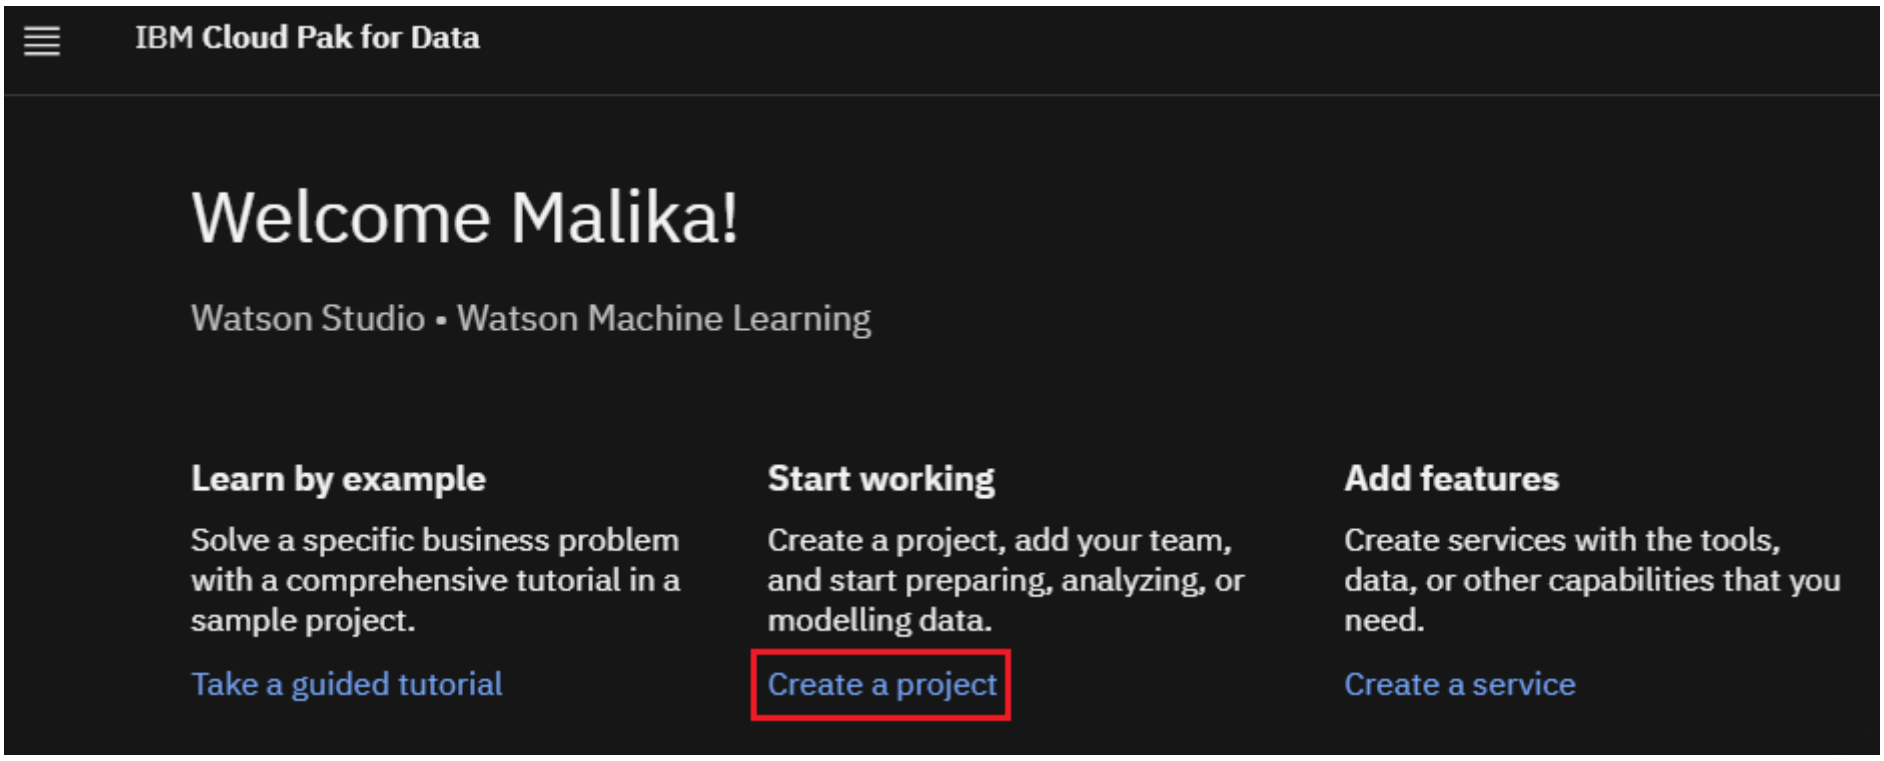
Then click **Get Started.**



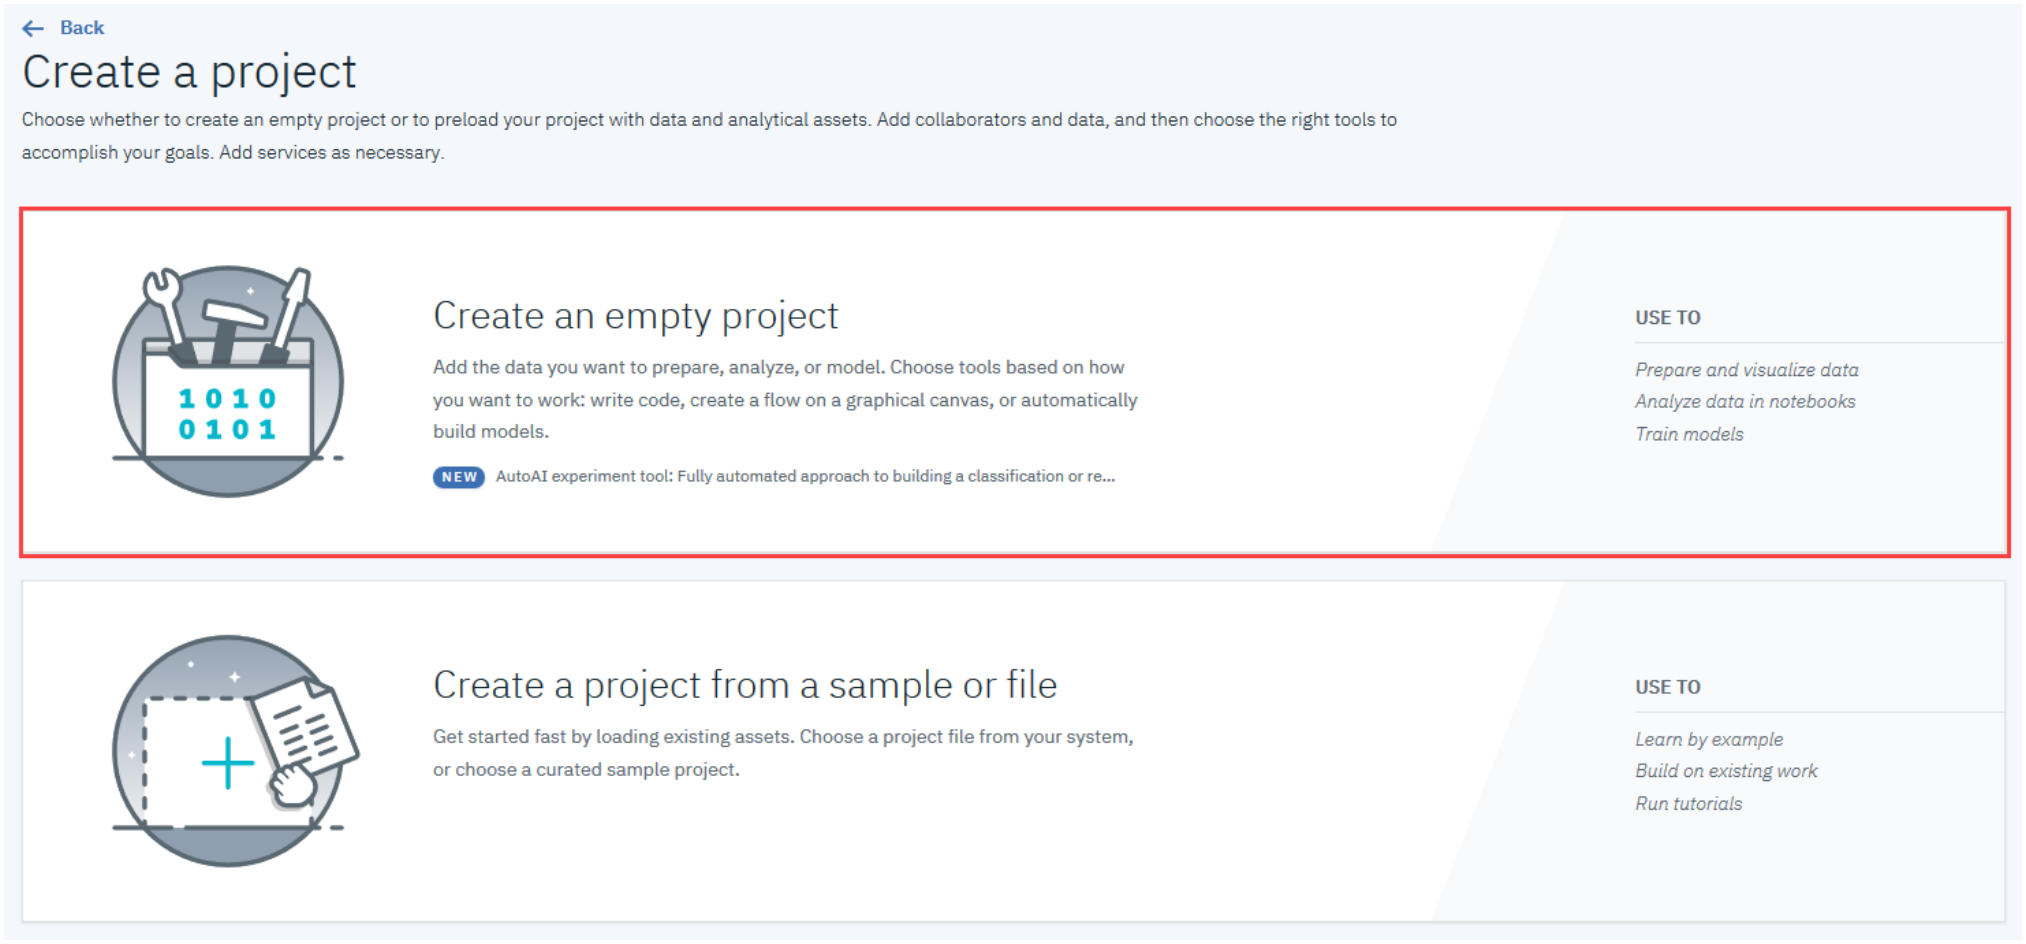
### Step 3: Creating a Project

Now you have to Create a project.

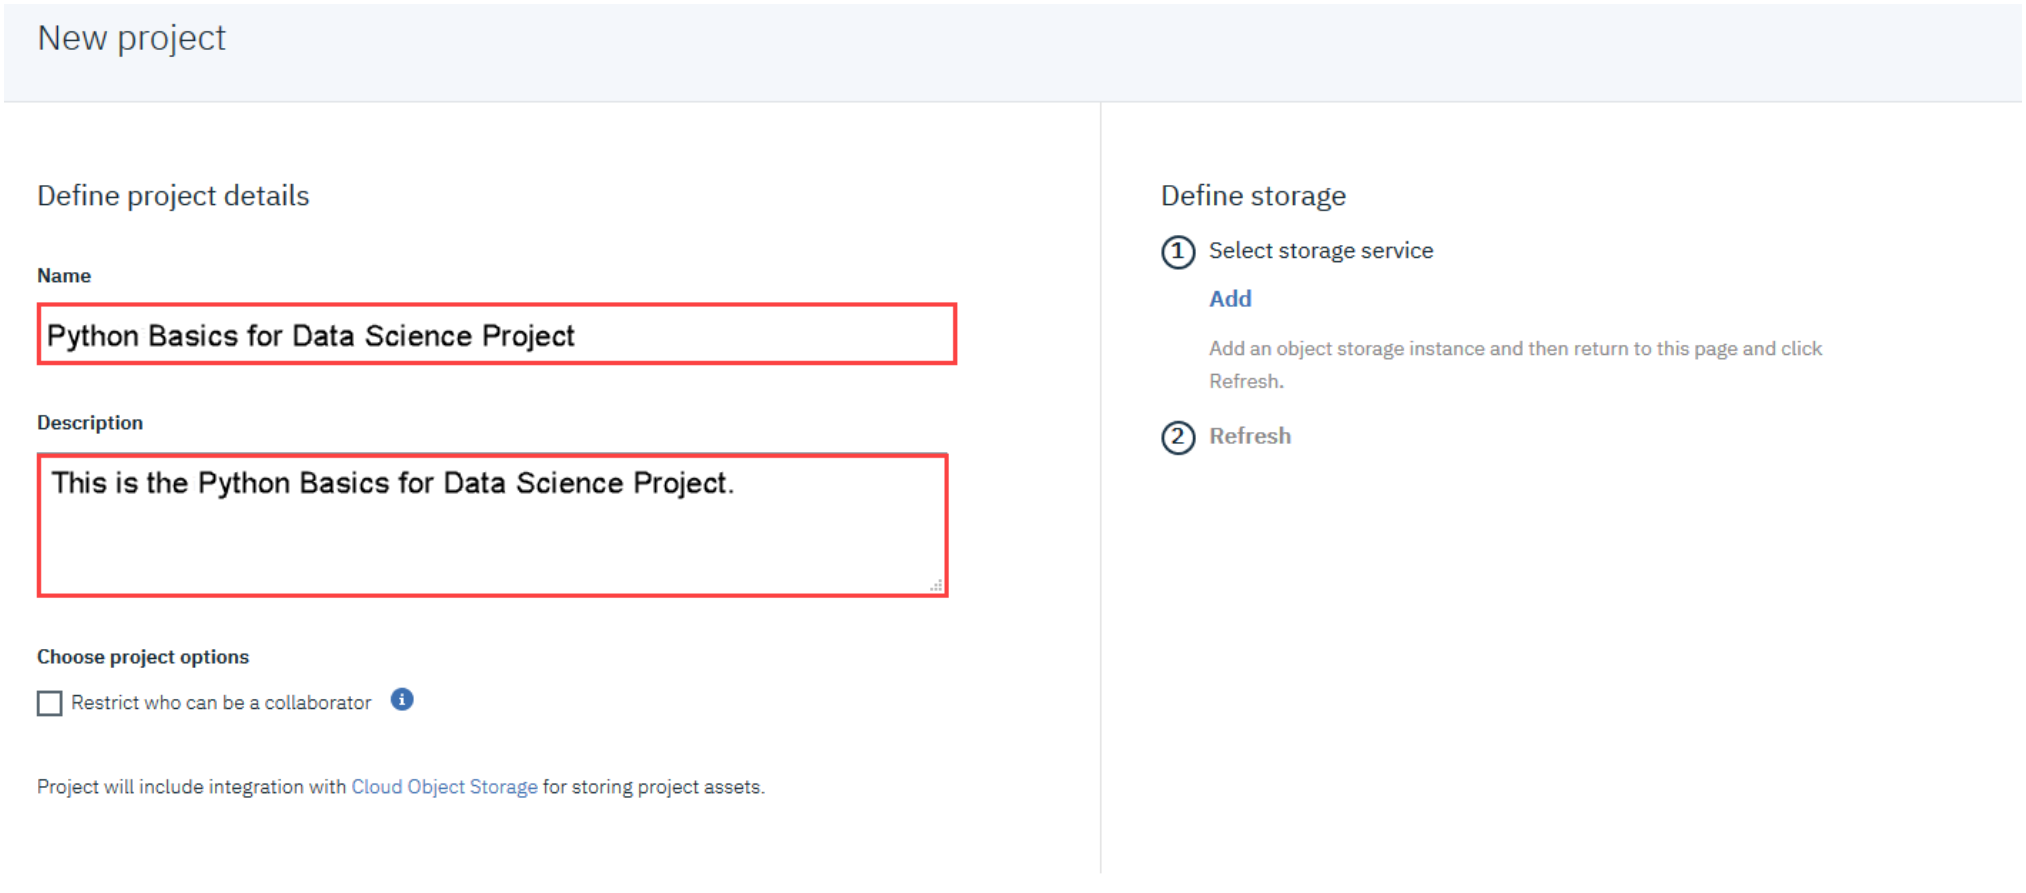
Click on **Create a project:**



On the Create a project page, click **Create an empty project**

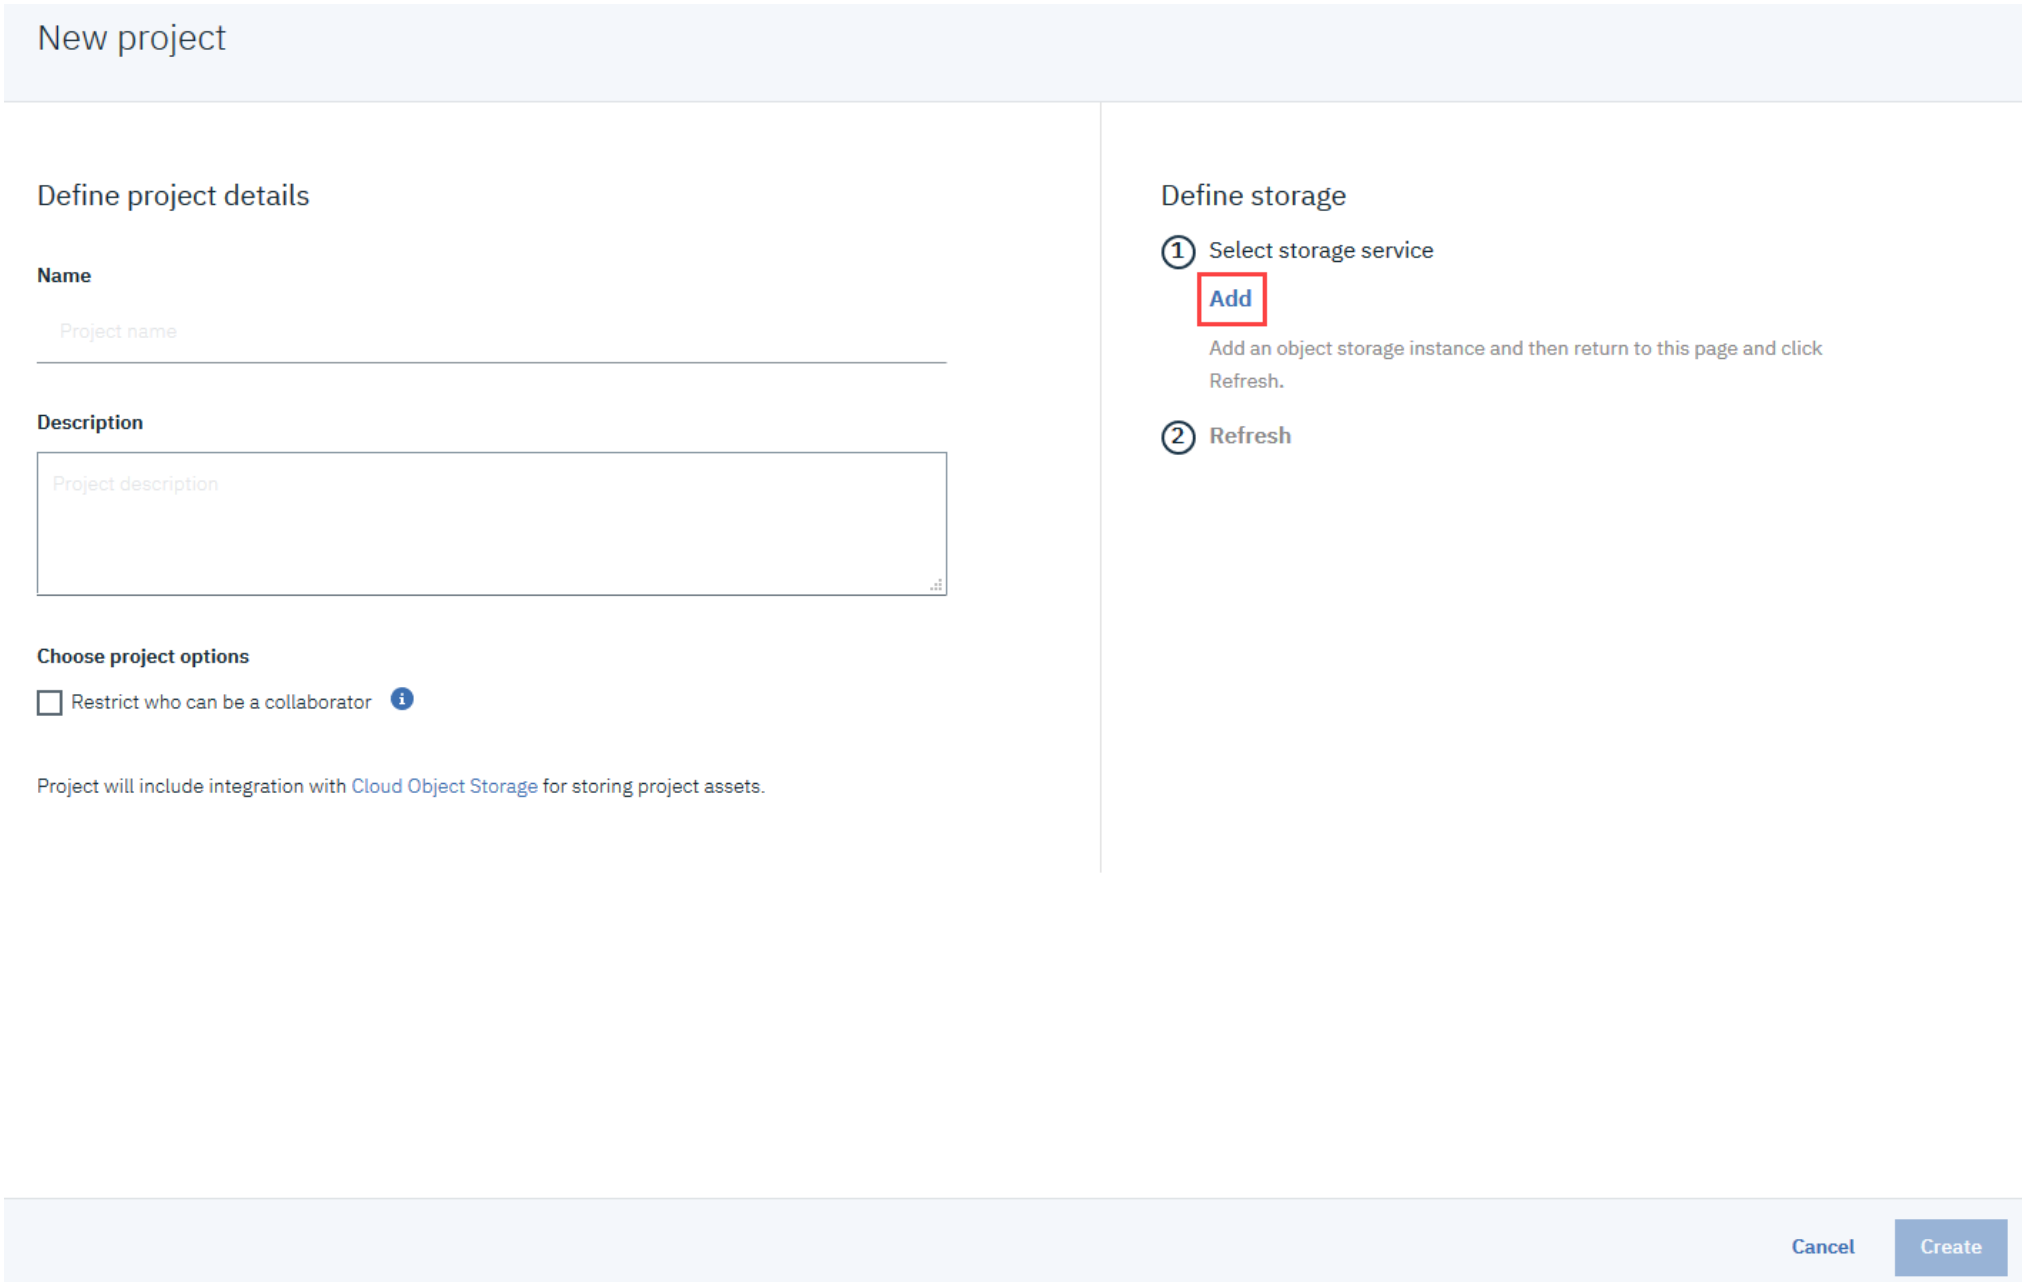


Provide a **Project Name** and **Description**, as shown below:

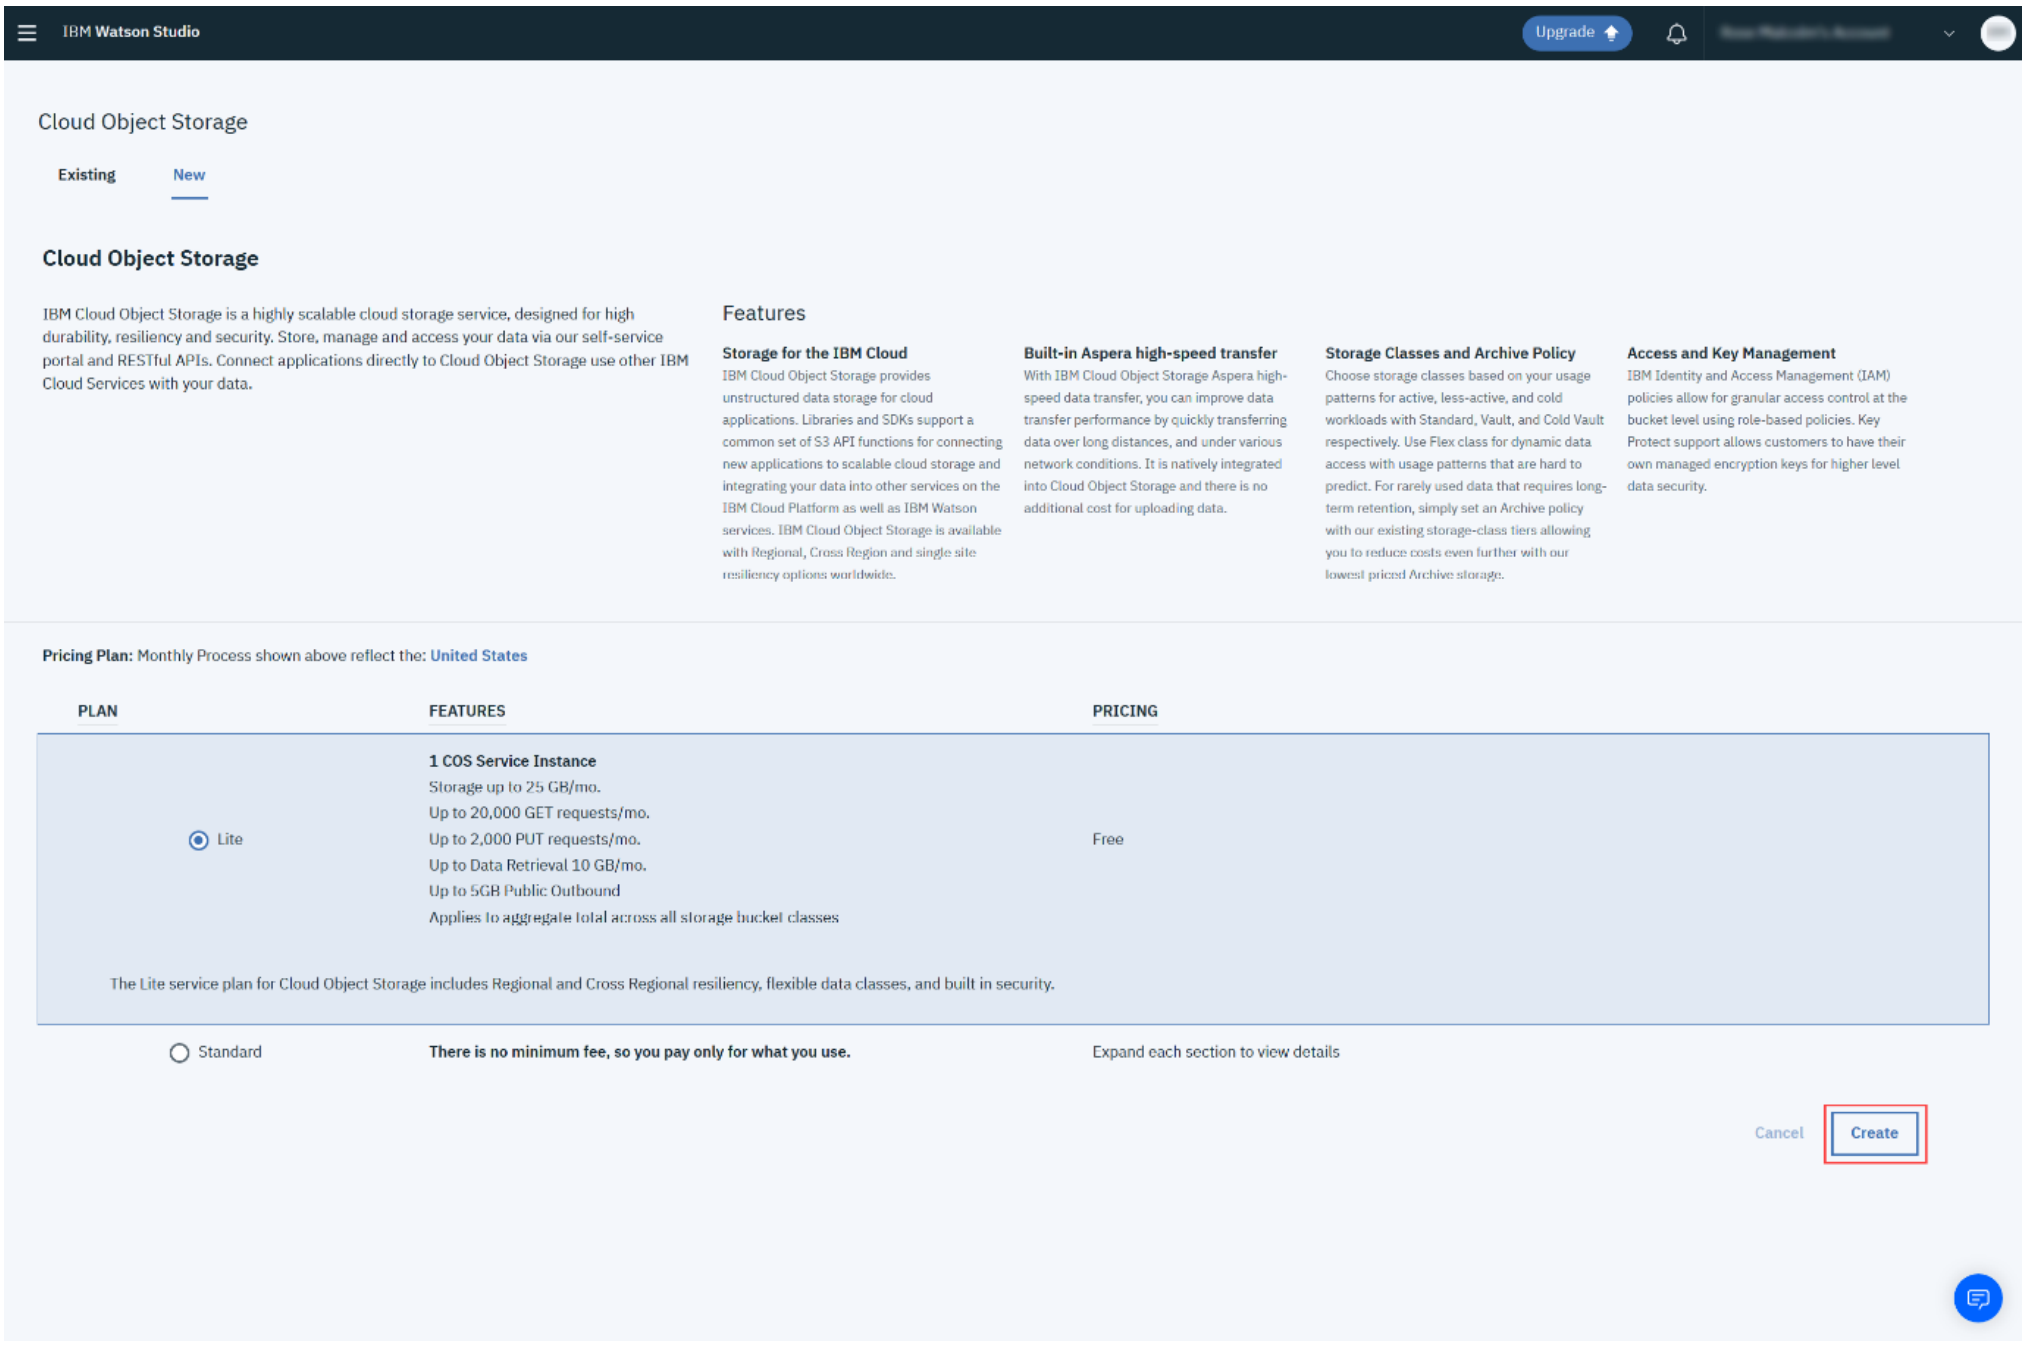


You must also create storage for the project.

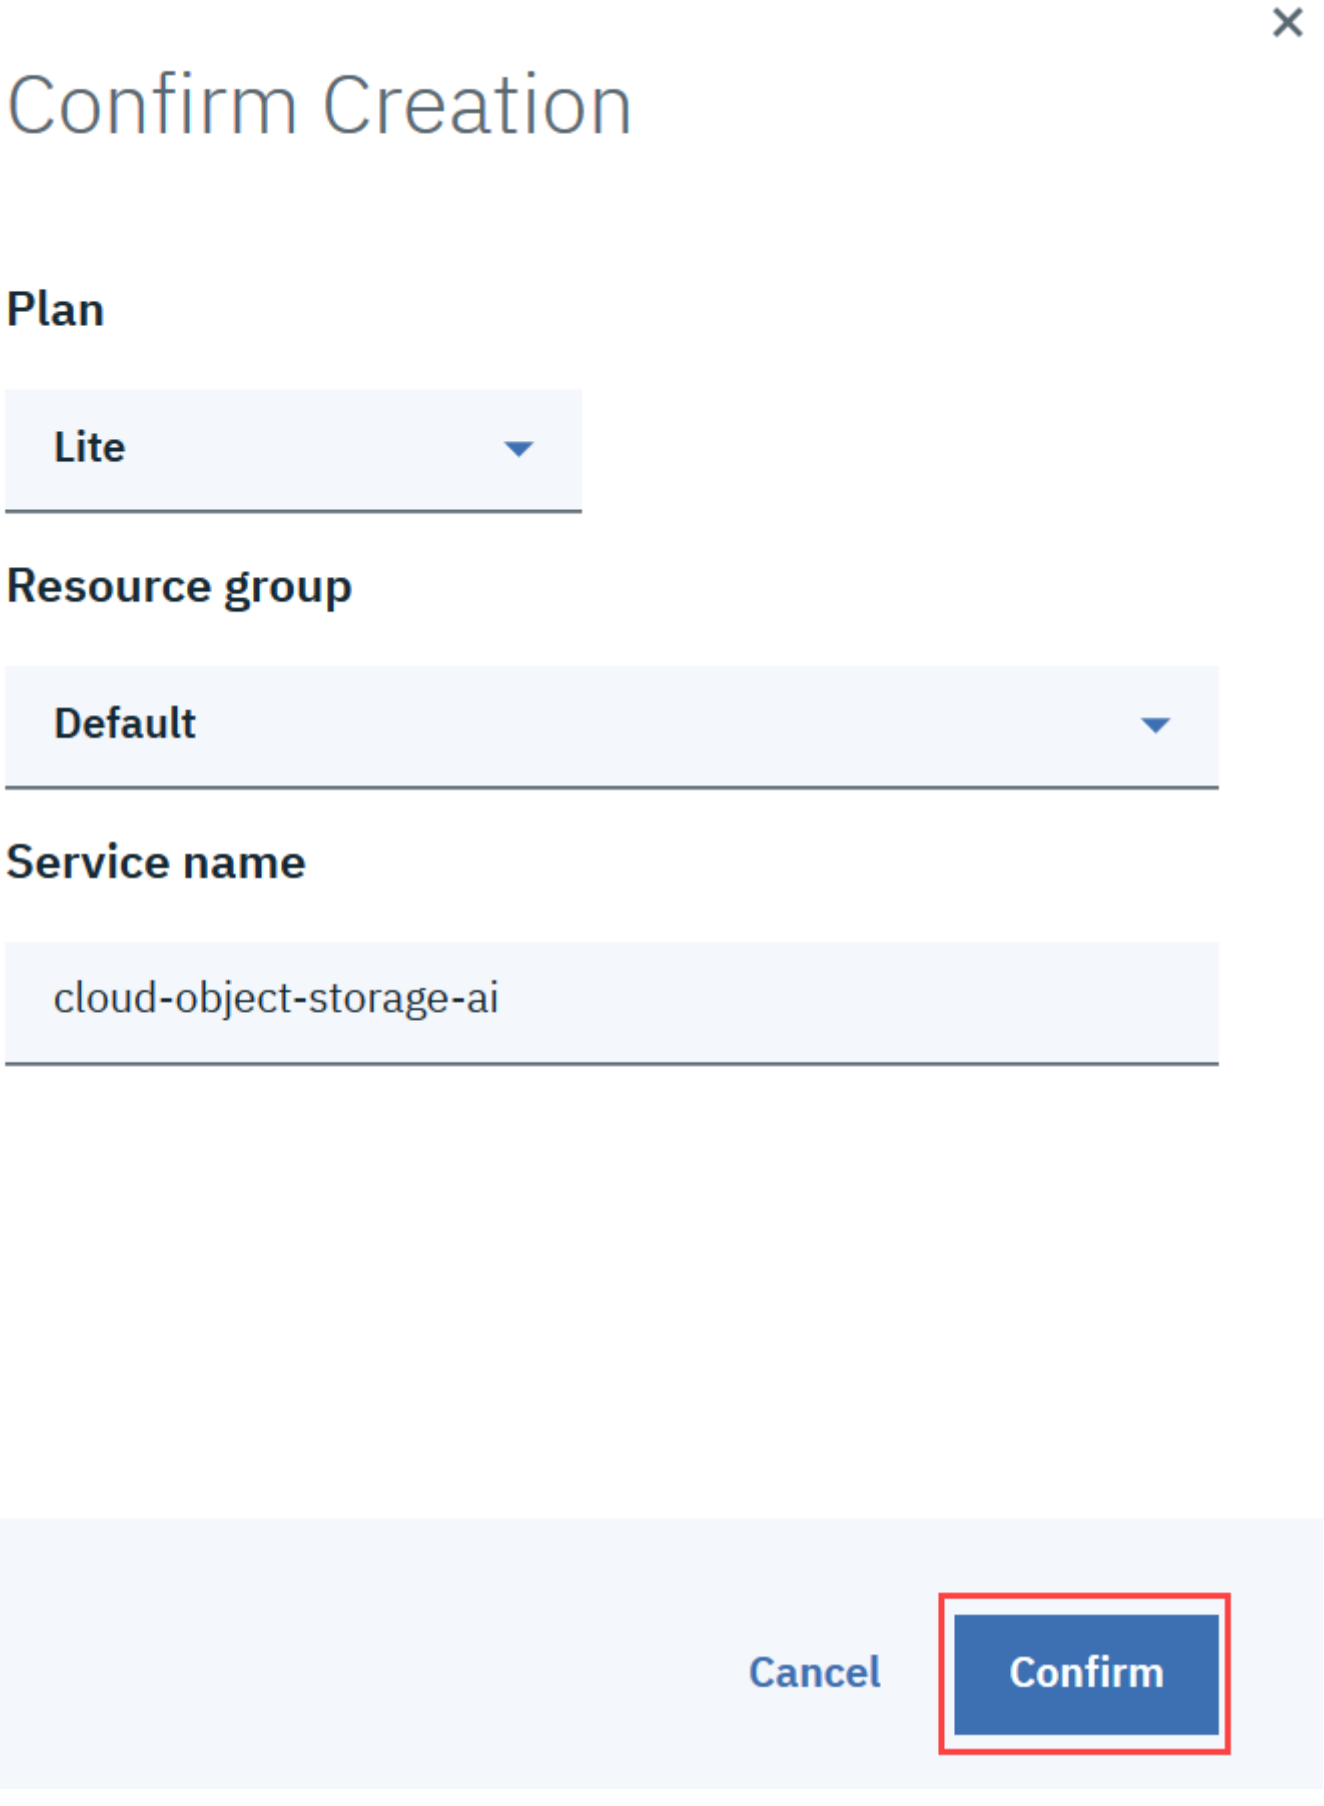
Click **Add**



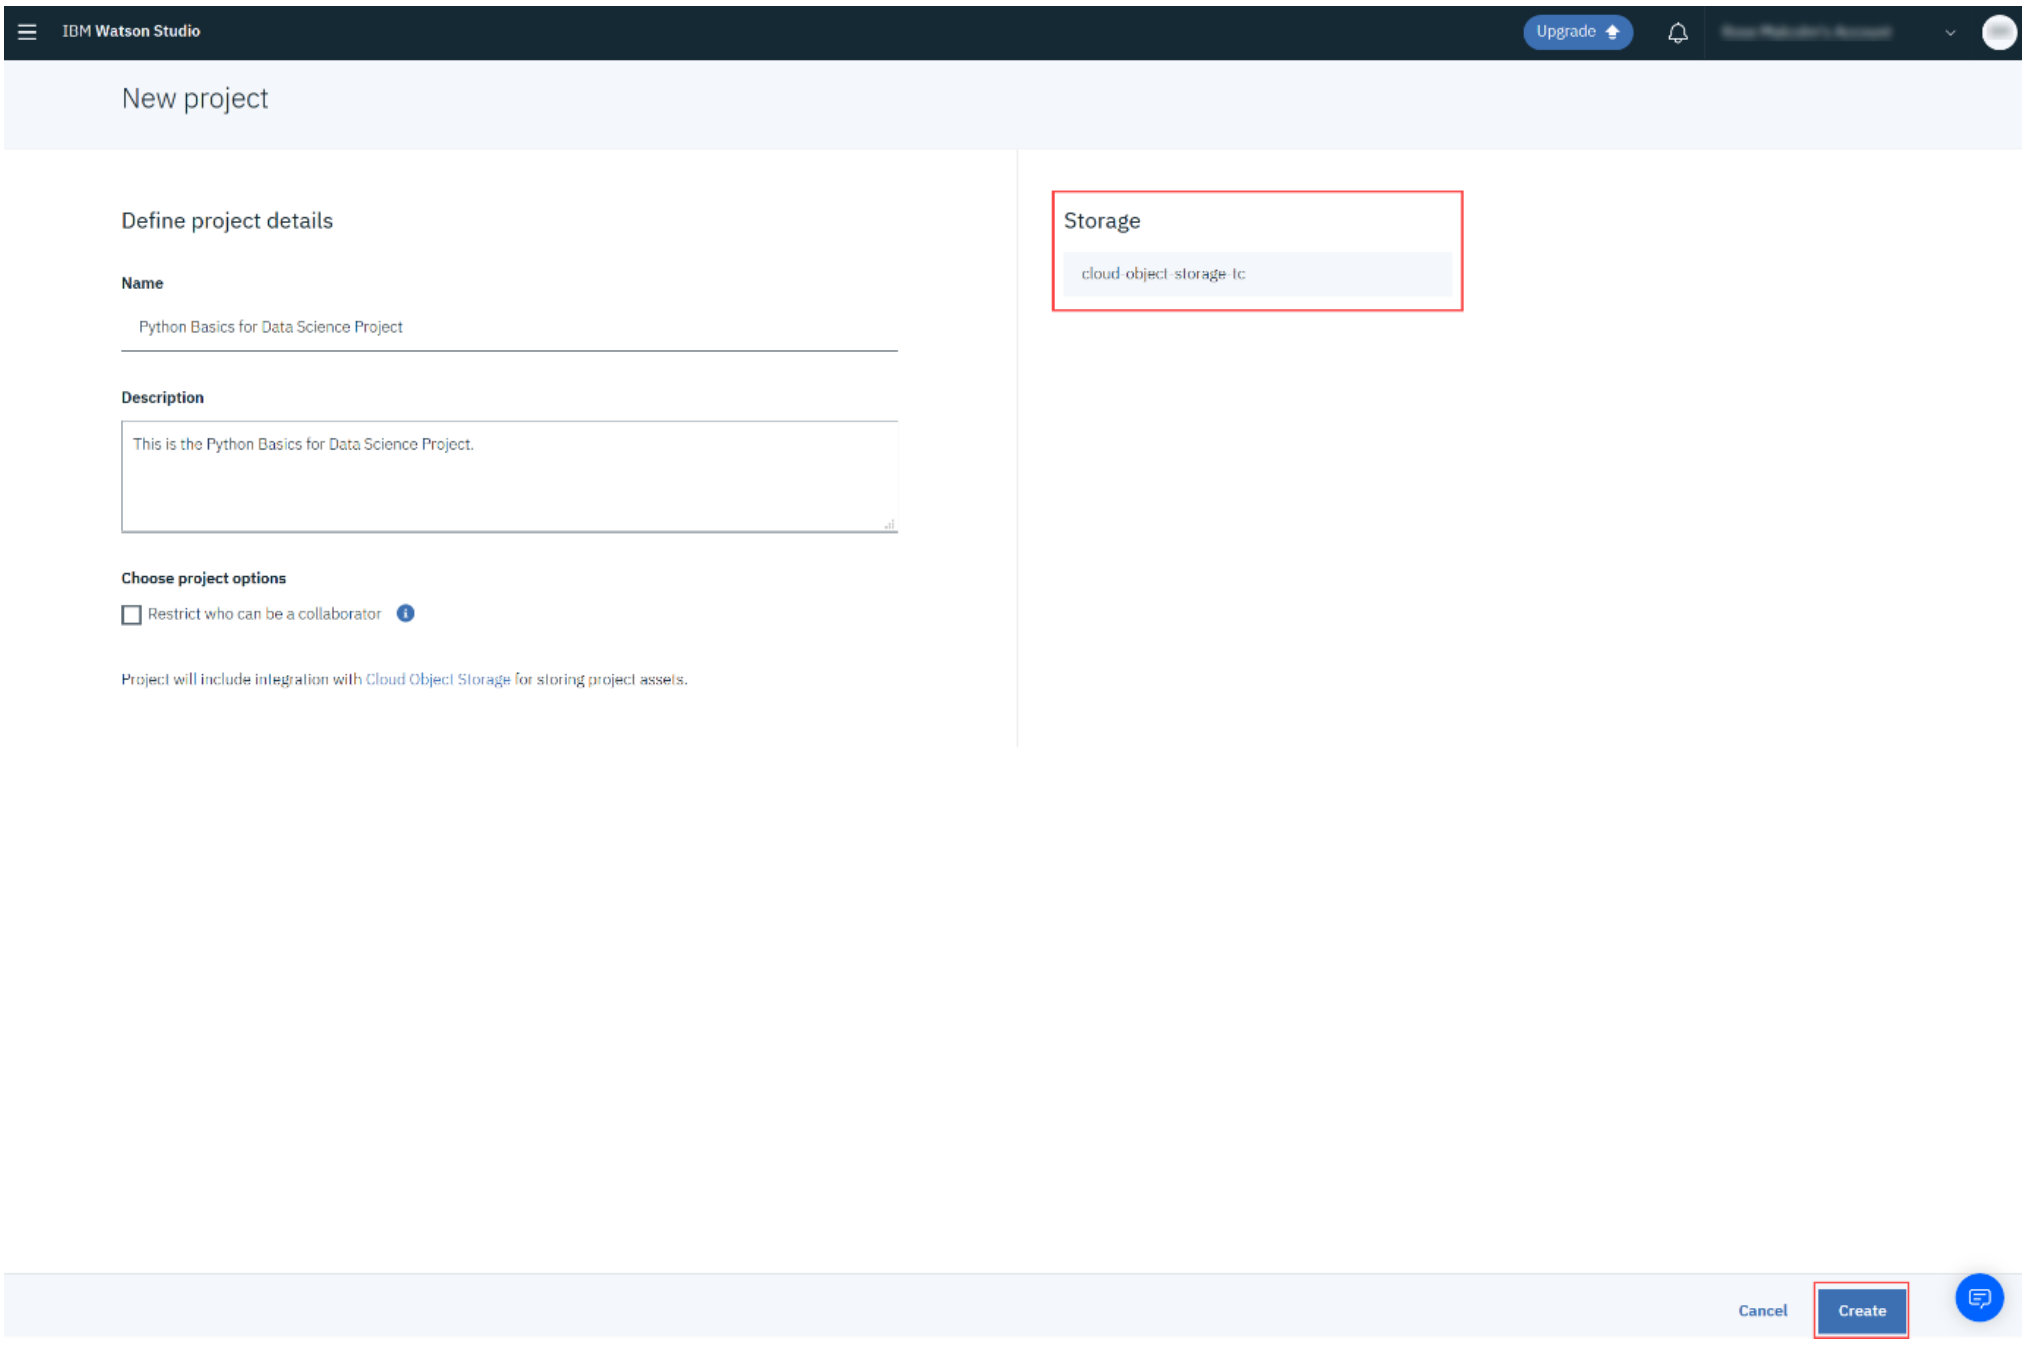
On the Cloud Object Storage page, scroll down and then click **Create.**



In the Confirm Creation box, click **Confirm.**



On the New project page, note that the storage has been added, and then click **Create.**



After creating the project you will need to add a Jupyter notebook to your project. Instructions for this are provided in a subsequent lab.
